Federal Aviation Administration

Notice of Intent To Rule on Request for a Land Exchange at the Double Eagle II Airport, Albuquerque, NM

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Request for the Double Eagle II Airport to exchange land with the State of New Mexico.

SUMMARY: The FAA proposes to rule and invites public comment on the exchange of property at the Double Eagle II Airport, Albuquerque, New Mexico. The city of Albuquerque as an airport owner has requested to exchange a tract of land that is currently on the north property line of the airport for a tract of land at the south center part of the airport. The land on the north to be exchanged requires release from any and all provisions of all applicable Grant Agreements and Grant Assurances, and to change forever, the lands exchanged from aeronautical to non-aeronautical use under the provisions of Section 125 of the Wendell H. Ford Aviation Investment Reform Act for the 21st Century (AIR 21). The state of New Mexico will exchange a section of land of equal land size immediately south of the intersection of the two established runways.

DATES: Comments must be received on or before April 18, 2007.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Mr. Lacey D. Spriggs, Manager, Federal Aviation Administration, Southwest Region, Airports Division, Louisiana/New Mexico Airports Development Office, ASW-640, Fort Worth, Texas 76193-0640.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Jim Hinde, City of Albuquerque, Aviation Department, PO Box 9948, Albuquerque, New Mexico.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Saupp, Program Manager, Federal Aviation Administration, LA/NM Airports Development Office, ASW-640e, 2601 Meacham Boulevard, Fort Worth, Texas 76193-0640.

The request to release property may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to exchange of this property in that: the release of the northern property from the Grant Assurances; incorporation of the southern property into dedicated airport property, all under the provisions of AIR 21.

The following is a brief overview of the request:

The city of Albuquerque as owner of the Double Eagle II Airport has requested of the Federal Aviation Administration to exchange approximately 52 acres for land of the same size adjacent to the airport. The northern tract is 375 feet wide by 6,000 feet long of the existing Double Eagle II Airport, for a parcel 2,120 feet wide and 1,062 deep located in the south central part but off the airport. This southern part is located between Runways 4/22 and 17/35 and adjacent to the parallel taxiways to both runways. This exchange shall protect the line of sight for aircraft operating on these separate runways. The lands of the northern tract will be changed from aeronautical to non-aeronautical use and the lands released from the conditions of the Airport Improvement Program Grant Agreement Grant Assurances. Upon this exchange the Assurances of the Grant Agreements shall hereafter apply to the south tract of land.

Any person may inspect the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the office of Mr. Jim Hinder, Albuquerque Sunport Offices, Terminal Building, Albuquerque, NM.

Dated: Issued in Fort Worth, Texas on March 12, 2007.

D. Cameron Bryan,

Acting Manager, Airports, Division.

[Docket No. FHWA-2007-27605]

Notice of Request for Extension of Currently Approved Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) to renew an information collection. We published a **Federal Register** Notice with a 60-day public comment period on this information collection on January 9, 2007. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by April 18, 2007.

ADDRESSES: You may send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information.

All comments should include the Docket number FHWA-2007-27605.

FOR FURTHER INFORMATION CONTACT:

Guan Xu, 202-366-5892, Office of Safety Design, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Developing and Recording Costs for Railroad Adjustments.

OMB Control #: 2125-0521.

Background: Under 23 U.S.C. 130, the FHWA reimburses the State highway agencies when they have paid for the cost of projects that (1) eliminate hazards at railroad/highway crossings, or (2) adjust railroad facilities to accommodate the construction of highway projects. The FHWA requires the railroad companies to document their costs incurred for adjusting their facilities. The railroad companies must have a system for recording labor, materials, supplies, and equipment costs incurred when undertaking the necessary railroad work. This record of costs forms the basis for payment by the State highway agency to the railroad company, and in turn FHWA reimburses the State for its payment to the railroad company.

Respondents: Approximately 135 railroad companies.

Frequency: Nearly 135 railroad companies are involved in an average of 10 railroad/highway projects per year, so the total frequency is 1,350 railroad adjustments.

Estimated Average Burden per Response: The average number of hours required to calculate the railroad adjustment costs and maintain the required records per adjustment is 12 hours.

Estimated Total Annual Burden Hours: The FHWA estimates that the total annual burden imposed on the public by this collection is 16,200 hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: March 13, 2007.

James R. Kabel,

Chief, Management Programs and Analysis Division.
