

holding frequency constant. WTP would be estimated in the context of the severity of the individual's asthma and the activities taken to manage the disease. The results will help to provide researchers and policy analysts with evidence on the potential benefits of actions policies that influence acute asthma episodes.

Through a cooperative agreement from EPA (R-83062801-0), researchers at the University of Central Florida (UCF) have designed and are proposing to conduct two surveys of adult individuals. One survey would be administered to a sample of adults with physician-diagnosed asthma who have experienced asthma symptoms during the 12 months preceding the survey. One survey focuses on eliciting adults' WTP to reduce the asthma episodes that they experience. A related survey would be administered to a sample of parents of children with physician-diagnosed asthma who have experienced asthma symptoms during the 12 months preceding the survey. In this case, the focus is on eliciting parents' WTP to reduce the asthma episodes that their children experience.

The purpose of the proposed ICR is to gain approval for the conduct of a series of focus groups and individual interviews as part of the survey development process. Focus groups and cognitive interviews are a crucial component in the survey development process as they allow survey developers to identify problematic approaches, terminology, and graphics in the survey instrument. A total of 50 interviews are anticipated, including focus group responses and individual interviews.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The only burden imposed by the interviews on respondents will be the

time required to participate in focus group discussions and answer interview questions. The survey developers estimate that this will require an average of 2 hours per respondent. With a total of 50 respondents this requires a total of 100 hours. Based on an average hourly rate of \$27.31, including employer costs of all employee benefits, the survey developers expect that the average per-respondent cost for the pilot survey will be \$54.62 and the corresponding one-time total cost to all respondents will be \$2,731.00 (Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, total compensation, December 2006 <http://stats.bls.gov/news.release/ecec.t02.htm>). Since this information collection is voluntary and does not involve any special equipment, respondents will not incur any capital or operation and maintenance (O&M) costs.

Respondents/Affected Entities: Individuals or Households.

Estimated Number of Respondents: 50.

Frequency of Response: One-time.

Estimated Total Annual Hour Burden: 100.

Estimated Total Annual Cost: \$2,731.00, includes \$0 annualized capital or O&M costs.

Dated: March 12, 2007.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 14, 2006 (71 FR 54280), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OAR-2006-0742, which is available for online viewing at www.regulations.gov, or in person viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Air and Radiation Docket and Information Center is 202-566-1742.

Use EPA's electronic docket and comment system at www.regulations.gov, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether

submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Motor Vehicle and Engine Compliance Program Fees (Renewal).

ICR numbers: EPA ICR No. 2080.03, OMB Control No. 2060-0545.

ICR Status: This ICR is scheduled to expire on March 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA charges user fees for administering its vehicle and engine certification programs. In 2004 the fees were extended to include certification applications for recently regulated categories of off-road vehicles and engines. Manufacturers and importers of covered vehicles and engines are required to pay the applicable certification fee prior to their certification applications being reviewed. This involves submitting payments along with a filing form identifying the engine family to be covered by the fee. There are also correction and refund forms. This ICR estimates the paperwork burden of submitting these fees and associated forms. This information collection covers the entire certification fees program, both on-road and off-road.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers or importers of passenger cars, motorcycles, light trucks, heavy duty truck engines, and non-road vehicles or engines required to receive a certificate of conformity from EPA prior to selling or introducing these products into commerce in the U.S.

Estimated Number of Respondents: 419.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 694.8.

Estimated Total Annual Cost: \$46,198, including \$11,028 in O&M costs and no startup or capital costs.

Changes in the Estimates: There is an increase of 65.8 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to use of actual counts, rather than projections, of fee forms submitted, and to an increase in the estimated time required to process reduced fee and refund requests.
