Corrections to Rule that Implemented the New Formula for Calculating Computer Performance: Adjusted Peak Performance (APP) in Weighted TeraFLOPS

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule; correction.

SUMMARY: This rule corrects errors that were published on April 24, 2006, in the rule that implemented the new formula for calculating computer performance in Weighted TeraFLOPS (71 FR 20876).

These errors include references to Missile Technology controls that were removed by the April 24, 2006 rule, as well as errors related to scope of controls and license exceptions described in certain Export Control Classification Numbers.

DATES: *Effective Dates:* This rule is effective: March 22, 2007.

FOR FURTHER INFORMATION CONTACT: For questions of a technical nature contact: Joseph Young, Office of National Security and Technology Transfer Controls at 202-482-4197 or e-mail: jyoung@bis.doc.gov. For questions of a non-technical nature contact: Sharron Cook, Office of Exporter Services at 202-482-2440 or e-mail: scook@bis.doc.gov.

SUPPLEMENTARY INFORMATION**Background**

A rule published on April 24, 2006, added to the Export Administration Regulations (EAR) provisions that implemented the new formula for calculating computer performance in Weighted TeraFLOPS (WT). That rule included the removal of missile technology (MT) controls on certain commodities in Export Control Classification Number (ECCN) 4A003. Since publication, however, it was observed that some references to MT controls were inadvertently left in Note 1 of the License Requirement section and in the License Exception LVS eligibility section. This rule removes references to MT controls from 4A003.

In addition, because of the removal of MT controls from ECCNs 4A003 and 4D001 in the April 24, 2006 rule, the sentence in section 740.7 of the EAR (License Exception APP) that states “Technology for computers controlled for missile technology (MT) reasons are not eligible for License Exception APP” is no longer necessary and is therefore removed by this rule.

This rule corrects and simplifies the headings of ECCNs 4E001 and 4D001 by removing specific ECCN references and pointing to the List of Items Controlled section to determine the technology and software controls for these ECCNs. In addition, this rule revises the National Security control text by removing specific references to ECCNs and simplifying it to read “NS applies to entire entry.” This rule also corrects and simplifies the License Exception TSR eligibility text in the License Exception section of ECCN 4D001 to read “Yes, for ‘software’ described in 4D001.b with an ‘Adjusted Peak Performance’ (‘APP’) equal to or less than 0.1 WT.” A similar revision is made to correct and simplify

the License Exception TSR eligibility text in ECCN 4E001.

This rule also removes a duplicate paragraph in paragraph (c) of Supplement No. 2 to part 748, which was unintentionally left in this paragraph.

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as extended by the Notice of August 3, 2006, 71 FR 44551 (August 7, 2006), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves two collections of information subject to the PRA. One of the collections has been approved by OMB under control number 0694-0088, "Multi-Purpose Application," and carries a burden hour estimate of 58 minutes for a manual or electronic submission. The other of the collections has been approved by OMB under control number 0694-0106, "Reporting and Recordkeeping Requirements under the Wassenaar Arrangement," and carries a burden hour estimate of 21 minutes for a manual or electronic submission. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to OMB Desk Officer, New Executive Office Building, Washington, DC 20503; and to the Office of Administration, Bureau of Industry and Security, Department of Commerce, 14th and Pennsylvania Avenue, NW., Room 6883, Washington, DC 20230.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and

foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Sharron Cook, Office of Exporter Services, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044, or to scook@bis.doc.gov.

18 CFR Part 382

[Docket No. RM00-7-012]

Revision of Annual Charges to Public Utilities (Westar Energy, Inc. and Kansas Gas and Electric Company)

Issued March 15, 2007.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule; order on remand and announcement of policy.

SUMMARY: In this order, the Federal Energy Regulatory Commission (Commission) addresses issues raised by the United States Court of Appeals for the District of Columbia Circuit (D.C.

Circuit) on remand in *Westar Energy Inc.*, Docket No. RM87-3-000. The Commission here affirms its regulation at 18 CFR 382.201 (2006), adopted in Order No. 641, allowing correction of transmission volumes, but in response to the remand allows Westar Energy, Inc. to submit corrected transmission volumes out-of-time.

The Commission clarifies going forward that it will accept timely FERC Reporting Requirement No. 582 (FERC 582) corrections but will accept only those late-filed FERC 582 corrections that are discovered through a Commission-conducted audit and that correct previously under-reported transmission volumes. When a public utility underreports, it is assessed comparatively smaller annual charges, and other public utilities are assessed relatively larger annual charges thereby subsidizing those utilities who underreport.

DATES: *Effective Date:* This order on remand is effective March 15, 2007.
