DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

March 20, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Fruits, Nut, and Specialty Crops.

OMB Control Number: 0535-0039.

Summary of Collection: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official state and national estimates of crop and livestock production. Estimates of fruit, tree nuts, and specialty crops are an integral part of this program. These estimates support the NASS strategic plan to cover all agricultural cash receipts. The authority to collect these data activities is granted under U.S. Code title 7, Section 2204. Information is collected on a voluntary basis from growers, processors, and handlers through surveys.

Need and Use of the Information: Data reported on fruit, nut, and Hawaii tropical crops are used by NASS to estimate acreage, yield, production, utilization, and crop value in States with significant commercial production. These estimates are essential to farmers, processors, and handlers in making production and marketing decisions. Estimates from these inquiries are used by market order administrators in their determination of expected supplies of crop under federal and state market orders as well as competitive fruits and nuts.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 47,692.

Frequency of Responses: Reporting: On occasion; Annually; Quarterly; Semi-annually; Monthly.

Total Burden Hours: 9,430.

SUPPLEMENTARY INFORMATION:

Title: Operating Guidelines, Forms and Waivers.

OMB Number: 0584-0083.

Expiration Date: July 2007.

Type of Request: Revision of a currently approved collection.

Abstract: In accordance with section 11(e) of the Food Stamp Act of 1977 (the Act), 7 U.S.C. 2020(e), State agencies are required to submit a Plan of Operation specifying the manner in which the Food Stamp Program will be conducted. The State Plan of Operations, in accordance with current rules at 7 CFR 272.2, consists of a Federal/State Agreement, annual budget and activity statements, and specific attachments relating to the State Plan of Operation. State Plans of Operation are a one-time effort with updates that are provided as necessary.

Under section 16 of the Act, 7 U.S.C. 2025, the Secretary is authorized to pay each State agency an amount equal to 50 percent of all administrative costs involved in each State agency's operation of the FSP. Under corresponding FSP regulations at 7 CFR 272.2, the State agencies must submit annually to FNS for approval, a Budget Projection Statement (Form FNS-366A), which projects the total costs for major areas of FSP operations, and a Program Activity Statement (Form FNS-366B), which provides a summary of FSP operations during the preceding fiscal year. The reports are required to substantiate the costs the State agency expects to incur during the next fiscal year. Form FNS-366A is submitted annually by August 15, for the upcoming fiscal year and Form FNS-366B must be submitted no later than 45 days after the end of each State agency's fiscal year.

Since October 2002, FNS has used the quality control (QC) data to collect information about timeliness of application processing. On February 7, 2005, the final rule on high performance bonuses was published in the **Federal Register** (70 FR 6313), and included a provision regarding the use of QC data to determine each State's rate of application processing timeliness. Accordingly, in March 2005, FNS notified State agencies that it was eliminating the application timeliness data on the FNS-366B, and instead will continue to rely on the QC data to determine States' application timelines processing rates.

In fiscal year (FY) 2006, 49 percent of State agencies submitted the FNS-366A electronically and 51 percent submitted a paper report. For FY 2005, a total of 60 percent of State agencies submitted the FNS-366B electronically with the

remaining 40 percent submitting paper reports.

Finally, State agencies are required to submit certain other documents to FNS for review relating to certain specific activities that the State agency may choose to do. These other submissions include a written action plan, called an Advance Planning Document (APD), if the State agency wishes to acquire proposed automated data processing (ADP) services, systems or equipment, an outreach plan if the State elects to do program information activities, and updates related to options exercised under the Food Stamp Act, as amended.

Respondents: State agencies that administer the FSP.

Number of Respondents: 53.

Estimated Number of Responses per Respondent:

Plan of Operation Updates: 53 State agencies once a year.

Form FNS-366A: 53 State agencies once a year.

Form FNS-366B: 53 State agencies once a year.

Other APD, Plan, or Update Submissions: Up to 53 State agencies may submit one or more APD, plan or update submission averaging 4.75 submissions per respondent per year or 252 total responses.

Estimate of Burden:

Plan of Operation Updates: The State agencies submit Plan updates at an estimate of 10 hours per respondent, or 530 total hours.

Form FNS-366A: The State agencies submit Form FNS-366A at an estimate of 13 hours per respondent, or 689 total hours.

Form FNS-366B: The total burden for the collection of information for Form FNS-366B is 18 hours per respondent, or 954 hours.

Other APD, Plan, or Update Submissions: We estimate that up to 53 States may submit one or more submissions for an APD, plan, or update submission for a total of 252 annual responses at an average estimate of 2.681 hours per respondent, or 675.6 hours.

Estimated Total Annual Burden on Respondents: The total annual reporting and recordkeeping burden for OMB No. 0584-0083 is estimated to be 2,848.5 hours, an increase of 100 hours. The increase is due to a re-estimate of the time it takes for Other APD, Plan, or Update submissions.

Dated: March 20, 2007.

George A. Braley,

Acting Administrator Food and Nutrition Service.

DEPARTMENT OF AGRICULTURE**Forest Service****Battle Park/Mistymoon Allotment Management Plan on the Powder River Ranger District, Bighorn National Forest, Big Horn County, WY**

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA, Forest Service, will prepare an environmental impact statement (EIS) to update range management planning on the Battle Park Cattle and Horse allotment and the Mistymoon Sheep and Goat livestock grazing allotment, which will result in development of new allotment management plans (AMPs). The agency gives notice of the full environmental analysis and decision-making process that will occur on the proposal so that interested and affected people may become aware of how they may participate in the process and contribute to the final decision.

DATES: Comments and input regarding the proposal were requested from the public, other groups and agencies via direct mailing on August 16, 2004. Additional comments may be made at the addresses below, and would be most helpful if submitted within thirty days of the publication of this notice. Based on the comments received and preliminary analysis, the Responsible Official has determined that an environmental impact statement will be prepared for this project. The draft environmental impact statement is expected in May 2007 and the final environmental impact statement is expected September 2007.

ADDRESSES: Send written comments and suggestions concerning this proposal to Mark Booth, District Ranger, Powder River Ranger District, Bighorn National Forest, 1415 Fort Street, Buffalo, Wyoming 82834.

FOR FURTHER INFORMATION CONTACT: Direct questions to Bernie Bornong, Interdisciplinary Team Leader, Bighorn National Forest, 2013 Eastside 2nd Street, phone (307) 674-2600.

SUPPLEMENTARY INFORMATION: The allotments are located approximately 50 miles, by road, northeast of Worland, Wyoming in the Bighorn River drainage. National Forest System land within the Bighorn National Forest will be considered in the proposal. The purpose of the analysis is to determine if livestock grazing will continue on the analysis area. If the decision is to continue livestock grazing, then updated management strategies
