

Environmental Impact Statement from the public for 60 days from the date the Environmental Protection Agency publishes the Notice of Availability. Public meetings are scheduled at Cody, Wyoming on May 16, 2007 and West Yellowstone, Montana on May 17, 2007; time and place to be determined.

ADDRESSES: Information will be available for public review and comment online at <http://parkplanning.nps.gov>, in the office of Superintendent Suzanne Lewis, P.O. Box 168, Yellowstone National Park, WY 82190, 307-344-2019 and in the office of Superintendent Mary Gibson-Scott, Grand Teton National Park, P.O. Drawer 170, Moose, WY 83012-0170, 307-739-3300.

FOR FURTHER INFORMATION CONTACT: Debbie VanDePolder, P.O. Box 168, Yellowstone National Park, WY, 82190, 307-344-2019, yell_winter_use@nps.gov.

SUPPLEMENTARY INFORMATION: If you wish to comment, you may submit your comments by any one of several methods. You may mail comments to Winter Use Plan, P.O. Box 168, Yellowstone National Park, WY, 82190. You may also comment via the Internet at <http://parkplanning.nps.gov>. If you do not receive a confirmation from the system that we have received your Internet message, contact us directly at 307-344-2019. Finally, you may hand-deliver comments to Superintendent's Office, Headquarters Building, Mammoth Hot Springs, Yellowstone National Park, WY. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: March 2, 2007.

Michael D. Snyder,

Director, Intermountain Region, National Park Service.

BILLING CODE 4312-51-P

DEPARTMENT OF THE INTERIOR**National Park Service**

**Notice of Inventory Completion:
Museum of Indian Arts and Culture,
Laboratory of Anthropology, Museum
of New Mexico, New Mexico
Department of Cultural Affairs, Santa
Fe, NM; Correction**

AGENCY: National Park Service, Interior.
ACTION: Notice; correction.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the

completion of an inventory of human remains in the possession of the Museum of Indian Arts and Culture, Laboratory of Anthropology, Museum of New Mexico, New Mexico Department of Cultural Affairs, Santa Fe, NM. The human remains were removed from Torrance County, NM.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the Museum of Indian Arts and Culture, Laboratory of Anthropology and Department of Cultural Affairs professional staff in consultation with representatives of the Hopi Tribe of Arizona; Kiowa Indian Tribe of Oklahoma; Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Pueblo of Acoma, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Santo Domingo, New Mexico; Pueblo of Taos, New Mexico; Wichita and Affiliated Tribes (Wichita, Keechi, Waco & Tawakonie), Oklahoma; Ysleta del Sur Pueblo of Texas; and Zuni Tribe of the Zuni Reservation, New Mexico.

This notice is an addition of a minimum of 33 individuals from sites LA 95 (Quarai site) and LA 97 (Abo site), which were previously described in a Notice of Inventory Completion published in the **Federal Register** on August 29, 2000 (FR Doc 00-21974, pages 52441-52442). The human remains are extremely fragmentary and were found mixed in containers of non-human bone in the museum's collection. In 2000, the Museum of Indian Arts and Culture, Laboratory of Anthropology repatriated the human remains of the 29 individuals described in the Notice of Inventory Completion of August 29, 2000, to the Ysleta Del Sur Pueblo of Texas. At that same time, unassociated funerary objects from the LA 95 (Quarai site) described in a Notice of Intent to Repatriate published in the **Federal Register** on August 29, 2000 (FR Doc 00-21973, pages 52440-52441), were also repatriated.

In 2004, the Museum of Indian Arts and Culture, Laboratory of Anthropology and Department of Cultural Affairs found human remains representing a minimum of five individuals from site LA 97 (Abo site), Torrance County, NM, in their collection. The human remains had been removed in 1944-1945, and 1958,

during legally authorized excavations conducted by the Museum of New Mexico. No known individuals were identified. No associated funerary objects are present.

Based on archeological context, the human remains have been identified as Native American. Based on material culture and architectural features, site LA 97 (Abo site) is dated to the Pueblo IV through the early historic period (1300 A.D.-1680 A.D.).

In 2006, the Museum of Indian Arts and Culture, Laboratory of Anthropology and Department of Cultural Affairs found human remains representing a minimum 28 individuals from site LA 95 (Quarai site), Torrance County, NM, in their collection. The human remains had been removed in 1935-1936 and 1939-1940, during legally authorized excavations conducted as part of a multi-year stabilization project sponsored variously by the Museum of New Mexico, School of American Research, and Works Progress Administration. An additional undetermined number of individuals were recovered during the same time, some of which are curated by the Smithsonian Institution, and some of which are missing. The human remains found in the collections have not been identified as part of those individuals that were previously reported missing. No known individuals were identified. No associated funerary objects are present.

Based on archeological context, the human remains have been identified as Native American. Based on material culture, architectural features, and documentary evidence, site LA 95 (Quarai site) is dated to the Pueblo III to Pueblo IV and through Spanish Contact/Colonial (1100 A.D.-1680 A.D.).

The determination of material dates is based on archeological context and the cultural chronology for this region. Both sites are classified as Ancestral Puebloan and the human remains from these sites were recovered from cultural deposits containing ceramics that are materially and stylistically consistent with objects known to Southwestern archeologists as Ancestral Puebloan. Historical evidence also records these sites as trade centers, which enjoyed frequent contact with non-Puebloan tribes. Descendants of Ancestral Puebloan are members of the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santo Domingo, New Mexico; Pueblo of Taos, New Mexico; Ysleta del Sur Pueblo of Texas; and Zuni Tribe of the Zuni Reservation, New Mexico; as well as the
