### Cooperative State Research, Education, and Extension Service

*Title:* CSREES Current Research Information System (CRIS).

*OMB Control Number:* 0524-0042.

*Summary of Collection:* The United States Department of Agriculture (USDA), Cooperative State Research, Education, and Extension Service (CSREES) administers several competitive, peer-reviewed research, education and extension programs, under which awards of a high-priority are made. These programs are authorized pursuant to the authorities contained in the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3101); the Smith-Lever Act; and other legislative authorities. The Current Research Information System (CRIS) is USDA's documentation and reporting system for ongoing agricultural, food science, human nutrition, and forestry research. CRIS operates administratively under CSREES, but is a cooperative endeavor whereby information is collected on a project-by-project basis from many participant organizations, both federal and non-federal. Information is received from USDA agencies, State Agricultural Experiment Stations, the state land-grant colleges and universities, the institutions of 1890, state schools of forestry, cooperating schools of veterinary medicine, USDA grant recipients, and other cooperating institutions. The information is collected primarily via the Internet using CRIS Web forms.

*Need and use of the Information:* The collected information is necessary in order to provide descriptive information regarding individual research activities and integrated activities, to document expenditures and staff support for the activities, and to monitor the progress and impact of such activities. The information obtained through the collection process for CRIS furnishes unique data that is not available from any other source. Interruption in the collection process, or failure to collect this information would severely compromise one of CSREES' primary functions stated in the agency's strategic plan of "providing program leadership to identify, develop, and manage

programs to support university-based and other institutional research."

*Description of Respondents:* State, Local or Tribal Government; Business or other for-profit; Not-for profit institutions; Federal Government.

*Number of Respondents:* 32,441.

*Frequency of Responses:* Reporting: Other (Varies by form).

*Total Burden Hours:* 68,638.
