

Applicant specified in the particular application.

k. *Description of Application:* Duke Energy Carolinas, LLC (Duke), licensee for the Keowee-Toxaway Hydroelectric Project, has filed an application seeking authorization from the Federal Energy Regulatory Commission to lease to The Reserve at Lake Keowee (The Reserve), 10.77 acres of project lands located on Lake Keowee in Pickens County, South Carolina for access to the reservoir and the development of certain facilities that would serve the residents of The Reserve.

The Reserve proposes to develop Commercial/Residential and Commercial/Non-residential marina facilities at the site, consisting of 23 cluster docks with a total of 304 boat dock locations, an irrigation pump that would withdraw up to 2 million gallons of water a day from the lake, a docking location for fuel pumping and sewer pumpout facilities, and a dry stack storage facility that can accommodate up to 624 boats and includes a boat launching pier. The proposal would also involve dredging of 6,300 cubic yards of material, the use of a ferry to provide water access for property owners and golf carts to various locations on Lake Keowee (the ferry will not be moored at the site), and implementation of a mitigation plan to address existing encroachments of the golf course on project lands. The planned mitigation requires The Reserve to make various improvements to the project's Crow Creek Public Access Area and to provide ongoing maintenance of the area.
