

monitoring. An important purpose of the survey is to help the federal government implement a blood safety public health monitoring system. The survey will be mailed to approximately 3000 institutions that include hospitals, blood collection facilities, and cord blood banks selected from the American Hospital Association annual survey database and AABB member list of blood collection facilities, respectively. The maximum length of the instrument will be approximately 20–21 pages and the estimated number of data elements will be 200 to 300. The survey will include general questions about the institution, questions about blood collection, processing, and testing, blood transfusion, special procedures and product disposition, cellular therapy products, and human tissue. The 2007 NBCUS will also include additional questions on issues of biovigilance patient safety monitoring. Facilities will be surveyed regarding their 2006 calendar year activities. A toll-free hotline service for survey inquiries will be made available. Follow-up procedures will be in place to address survey non-responders. Following data collection, statistical tabulations of results for each question will be performed. The survey data will be analyzed by institution type, services provided, USPHS region, etc. A final comprehensive report on blood collection and transfusion-related activities in the United States will be issued for publication by HHS.

Thirty-Day Notice

AGENCY: Office of the Secretary.

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: Extension.

Title of Information Collection: Voluntary Academic and Industry Partner Surveys to Implement Executive Order 12862 and 5 U.S.C 305 for the Dept. of Health and Human Services.

Form/OMB No.: OS–0990–0220.

Use: The Office of Acquisition Management Policy (OAMP) under the Assistant Secretary for Administration and Management (ASAM) and the Office of Grants (OG) under the Assistant Secretary for Resources and Technology (ASRT), Office of the Secretary, Department of Health and Human Services (HHS) request that the Office of Management and Budget (OMB) extend its existing approval under Clearance No. 0990–0220 for HHS to undertake voluntary surveys of HHS partners in academia and industry (e.g., Principal Investigators, business offices, and vendors) through January 31, 2010. To comply with Executive Order 12862,

Setting Customer Service Standards (the EO), HHS again plans to systematically survey its grant recipients and contractors to compile their evaluations of the Department's grants and procurement processes, and to improve the way we conduct business with them.

These voluntary surveys will continue to be a collaborative effort, with OAMP and OG providing leadership, oversight, and a methodology; and the HHS Operating Divisions (OPDIVs) conducting the surveys for their own operations. Each OPDIV will conduct web-based surveys of its partners to obtain feedback for improving business processes. The grant recipients and contractors to be surveyed are sufficiently familiar with the Department and its OPDIVs to make this feedback extremely useful. These surveys will give OAMP, OG, and each of the OPDIVs an opportunity to understand and evaluate grant and procurement quality standards, as well as to incorporate best industry or public sector standards into OPDIV practices.
