

Ranch, campground, backcountry, Wilderness)?

- What are appropriate visitor use levels for different parts of the Monument?
- What transportation options should be considered for providing access to and within the Monument? What types of trail (or other) access are appropriate, and where?
- What is the appropriate level of development in different parts of the Monument, and what areas are appropriate for park administration and operations activities?
- How should the NPS work with nearby communities to encourage community understanding of the Monument and to address potential effects of development and population growth in neighboring communities on ecological, scenic, and Wilderness values of the Monument?
- Are there any recommendations for changes in the authorizing legislation for Pinnacles National Monument that should be considered in the GMP?

Comments: Through the outreach activities planned in this final scoping effort, the NPS welcomes additional information and suggestions from the public regarding resource protection, visitor use, and land management. This notice formally resumes the public scoping comment phase for the EIS process for the GMP. All interested persons, organizations, agencies, and American Indian tribes wishing to express new concerns or provide information about management issues which should be addressed in the GMP and environmental impact analysis process are encouraged to contact the Superintendent (previous responses are contained in the administrative record and do not need to be resubmitted). All comments received will become part of the public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

At this time, public scoping meetings are anticipated to be held during the spring of 2007; details will be announced widely in local and regional news media, via direct park mailings and through the GMP Web site: (<http://parkplanning.nps.gov/pinn>). All attendees will be given the opportunity to ask questions and provide comments

to the planning team. The Web site will provide the most up-to-date information regarding the project, including project description, planning process updates, meeting notices, reports and documents, and useful links associated with the project.

All written comments regarding the preparation of the EIS/GMP must be postmarked or transmitted not later than May 31, 2007 and should be submitted directly to General Management Plan Team, Pinnacles National Monument, 5000 Hwy 146, Paicines, CA 95043 (or electronically through the Web site noted above).

Decision Process: At this time, the draft EIS/GMP is expected to be released for public review during the fall of 2008; following due consideration of all comments as may be submitted, the final document is anticipated to be completed in the summer of 2009. Formal announcement of the availability of both documents will be published in the **Federal Register**, publicized via local and regional media and the internet, and via direct mailing to the project mailing list. Responsibility for approving the Final EIS/GMP is delegated to the NPS, and the official responsible for the final decision is the Regional Director, Pacific West Region; subsequently the official responsible for implementing the approved GMP is the Superintendent, Pinnacles National Monument.

Dated: January 26, 2007.

Jonathan B. Jarvis,

Regional Director, Pacific West Region.

BILLING CODE 4312-51-P

DEPARTMENT OF LABOR**Employment and Training Administration****Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974, as amended (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) number and alternative trade adjustment assistance (ATAA) by (TA-W) number issued during the period of March 19 through March 23, 2007.

In order for an affirmative determination to be made for workers of a primary firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. the sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially

separated, or are threatened to become totally or partially separated;

B. there has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. The country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. the country to which the workers' firm has shifted production of the articles to a beneficiary country under the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. there has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made for secondarily affected workers of a firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(b) of the Act must be met.

(1) Significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) the workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and such supply or production is related to the article that was the basis for such certification; and

(3) either—

(A) the workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) a loss or business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.
