

Applicants: Marianas Energy Company, LLC.

Description: Marianas Energy Company, LLC an indirect subsidiary of Osaka Gas Energy America Corporation submits notification of self-certification of foreign utility company status.

Filed Date: 04/06/2007.

Accession Number: 20070410-0161.

Comment Date: 5 p.m. Eastern Time on Friday, April 27, 2007.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or

call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Kimberly D. Bose,

Secretary.

[Project No. 1051-012 Alaska]

Alaska Power & Telephone Company; Notice of Availability of Environmental Assessment

April 10, 2007.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a subsequent license for the existing Skagway-Dewey Lakes Hydroelectric Project and has prepared an Environmental Assessment (EA) for the project. The 943-kilowatt (kW) project is located on Pullen, Dewey, Reid, Icy, and Snyder Creeks in Skagway, southeastern Alaska. The project does not occupy any federal lands. The project generates an average of about 3,500,000 kilowatthours (kWh) of energy annually. AP&T proposes no new capacity and no new construction.

The EA contains the staff's analysis of the potential environmental effects of the proposed project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number filed to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866)-208-3676; for TTY contact (202) 502-8659.

Any comments on the EA should be filed within 30 days from the date of this notice and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1-A, Washington, DC 20426. Please affix "Skagway-Dewey Lakes Hydroelectric Project No. 1051-012" to

all comments. Comments may be filed electronically via Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. For further information, contact Shana Murray at (202) 502-8333 or by e-mail at shana.murray@ferc.gov.

[Docket No. CP07-88-000]

Egan Hub Storage, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Egan Fourth Cavern Project and Request for Comments on Environmental Issues

April 9, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Egan Fourth Cavern Project, involving construction and operation of facilities by Egan Hub Gas Storage, LLC (Egan Hub) in Acadia and Evangeline Parishes, Louisiana. The EA will be used by the Commission in its decision-making process to determine whether or not to authorize the project.

This notice announces the opening of the scoping period that will be used to gather environmental input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on May 9, 2007.

An effort is being made to send this notice to all individuals, organizations, Native American Tribes, and government entities interested in and/or potentially affected by the proposed project. This includes all landowners who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within distances defined in the Commission's regulations of certain aboveground facilities. We¹ encourage government representatives to notify their constituents of this planned

¹"We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).
