Notice of Proposed Withdrawal and Transfer of Jurisdiction; Wisconsin

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management has received a petition/application from the United States Fish and Wildlife Service requesting that the Secretary of the Interior withdraw for a 50-year term 328.70 acres of public land from surface entry, and transfer administrative jurisdiction to the Secretary of the Interior, acting through the United States Fish and Wildlife Service, to protect and manage migratory bird and threatened and endangered species habitat. The land is located within the exterior boundaries of the Green Bay Islands National Wildlife Refuge System and was reserved for lighthouse purposes by Executive Orders dated December 11, 1848, and May 28, 1858. These orders will not be disturbed by the proposed withdrawal. This land presently is under the administrative jurisdiction of the United States Coast Guard, which recognizes that wildlife refuge management will make better use of the land than its current outdated use for lighthouse purposes. This notice provides an opportunity to comment on the proposed withdrawal and to request a public meeting.

DATES: Comments and requests for a public meeting must be received by July 18, 2007. Electronic format submittals will not be accepted.

ADDRESSES: Comments and meeting requests should be sent to the State Director, Bureau of Land Management-Eastern States, 7450 Boston Boulevard, Springfield, Virginia 22153.

FOR FURTHER INFORMATION CONTACT: Ida Doup, Bureau of Land Management-Eastern States, 703-440-1541, or at the above stated address.

SUPPLEMENTARY INFORMATION: The United States Fish and Wildlife Service has filed a petition/application to withdraw the following described public land from settlement, sale, location, or entry under the public land laws for a 50-year term, subject to valid existing rights:

Fourth Principal Meridian

T. 33 N., R. 29 E.,
Sec. 26, lots 1 and 2;
Sec. 27, lots 1, 2 and 3.

T. 33 N., R. 29 E.,

Sec. 1, NE¹/₄NW¹/₄.

The area described contains 328.70 acres in Door County known as Plum and Pilot Islands.

The purpose of the proposed withdrawal is to protect important native and migratory bird habitat, threatened and endangered species habitat, and historic resources in the Great Lakes Basin Ecosystem. Management of the land would transfer from the United States Coast Guard to the United States Fish and Wildlife Service with the proposed withdrawal.

There are no suitable alternative sites as the lands described lie within the approved boundary of the Green Bay National Wildlife Refuge and contain the resources that need protection.

A right-of-way or cooperative agreement would not provide the necessary administrative controls to adequately protect and manage the area in conjunction with, and on the same basis as the rest of the Refuge, or for the purposes for which the Refuge was established.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the State Director of the Bureau of Land Management-Eastern States at the address listed above.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the State Director, Bureau of Land Management-Eastern States within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

Comments, including names and street addresses of respondents, will be available for public review at the Bureau of Land Management-Eastern States, 7450 Boston Boulevard, Springfield, Virginia 22153, during regular business hours. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the

beginning of your comments. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

The proposed withdrawal will be processed in accordance with the regulations set forth in 43 CFR part 2300.

Notice of Proposed Withdrawal Extension and Opportunity for Public Meeting; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Department of the Interior proposes to extend the duration of Public Land Order (PLO) No. 6665 for an additional 20-year term. PLO No. 6665 withdrew 180 acres of public lands in Big Horn County, Wyoming from settlement, sale, location, or entry under the general land laws, including the United States mining laws to protect the Bureau of Land Management (BLM) Britton Springs Administrative Site and Crooked Creek Natural Area. This notice also gives an opportunity to comment on the proposed action and to request a public meeting. The lands have been and will remain open to mineral leasing.

DATES: Comments and requests for a public meeting must be received by July 18, 2007.

ADDRESSES: Comments and meeting requests should be sent to the BLM Billings Field Manager, 5001 Southgate Drive, Billings, Montana 59101-4669.

FOR FURTHER INFORMATION CONTACT: Janice MaChipiness, BLM, Billings Field Office, (406) 896-5263, or at the above address, or Sandra Ward, BLM, Montana State Office, (406) 896-5052, or at the above address.

SUPPLEMENTARY INFORMATION: The withdrawal created by PLO No. 6665 (53 FR 7187) will expire March 6, 2008, unless extended. The Assistant Secretary for Land and Minerals

Management has approved the BLM petition to file an application to extend PLO No. 6665 for an additional 20-year period. The withdrawal was made to protect the Britton Springs Administrative Site and the Crooked Creek Natural Area/National Natural Landmark on public lands described as follows:

Sixth Principal Meridian, Wyoming

T. 58 N., R. 95 W.,
Sec. 20, N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$;
Sec. 28, NW $\frac{1}{4}$.

The areas described aggregate 180 acres in Big Horn County.

The purpose of the proposed extension is to continue the withdrawal created by PLO No. 6665 for an additional 20-year term to protect the Federal investment at the Britton Springs Administrative Site and the paleontological resources in the Crooked Creek Natural Area.

As extended, the withdrawal would not alter the applicability of those public land laws governing the use of lands under lease, license, or permit or governing the disposal of the mineral or vegetative resources other than under the mining laws.

The use of a right-of-way or interagency or cooperative agreement would not adequately protect the paleontological resources and capital improvements in these areas.

There are no suitable alternative sites available. Significant paleontological resources are located at the Crooked Creek site and the Britton Springs site is already constructed in the above-described public land.

There are existing water facilities at the Britton Springs site.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal extension may present their views in writing to the BLM Billings Field Office at the address noted above.

Comments, including names and street addresses of respondents, will be available for public review at the BLM Billings Field Office at the address noted above during regular business hours 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comments, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your

personal identifying information, we cannot guarantee that we will be able to do so. Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal extension. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal extension must submit a written request to the BLM Billings Field Manager within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting. This withdrawal extension proposal will be processed in accordance with the applicable regulations set forth in 43 CFR 2310.4.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1103 (Final)]

Certain Activated Carbon From China Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is materially injured by reason of imports from China of certain activated carbon.²

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² For purposes of this investigation, the product covered is certain activated carbon defined as a powdered, granular, or pelletized carbon product obtained by "activating" with heat and steam various materials containing carbon, including but not limited to coal (including bituminous, lignite, and anthracite), wood, coconut shells, olive stones, and peat. The thermal and steam treatments remove organic materials and create an internal pore structure in the carbon material. The producer can also use carbon dioxide gas (CO₂) in place of steam in this process. The vast majority of the internal porosity developed during the high temperature steam (or CO₂ gas) activated process is a direct result of oxidation of a portion of the solid carbon atoms in the raw material, converting them into a gaseous form of carbon.

This definition covers all forms of activated carbon that are activated by steam or CO₂, regardless of the raw material, grade, mixture, additives, further washing or post-activation chemical treatment (chemical or water washing,
