The purpose of this notice is to provide further information on the commencement of the 2010 Census Redistricting Data Program, Phase 2 Voting District/Block Boundary Suggestion Project. Future notices will address the remaining phases of this 2010 Program.

The 2010 Census Redistricting Data Program¹ was initially announced on May 13, 2004, in the **Federal Register** (69 FR 26547). This notice described the program that the Census Bureau proposed to adopt for the 2010 Census. In addition, Phase 1 of the 2010 Census Redistricting Data Program was initially announced in a second **Federal Register** notice on February 15, 2005 (70 FR 7713). This notice described the procedures to be followed under Phase 1 for States to submit their legislative districts (House and Senate) to the Census Bureau for the development of data products by legislative district. For additional background information on these notices, please consult the **Federal Register** issues referenced above. Phase 1 was concluded on January 4, 2007, with the release of data re-tabulated from Census 2000 SF-1 (100% data) and SF-3 (sample data) for State legislative districts nationwide (50 States, the District of Columbia, and the Commonwealth of Puerto Rico).

participate in Phase 2, the Census Bureau will provide one county of data for that State from the MAF/TIGER Database and a copy of the MAF/TIGER Partnership Software (MTPS) to enable the State to begin work on Phase 2. States are not required to use the MTPS; however, they are required to provide their Phase 2 submission to the Census Bureau electronically in Census Bureau specified formats. During this time, the Census Bureau will provide training in the use of the MTPS and assist the States in preparing for the remaining counties within each State, scheduled for later in the fall of 2008. The States will have the opportunity to verify the inclusion of their voting districts and suggested tabulation block boundary features during 2009 and early 2010, to ensure the voting district boundaries that will be used by the Census Bureau are consistent with their submissions.

The Census Bureau will continue to communicate with each State to ensure that the States are well informed on the benefits of working with the Census Bureau towards a successful 2010 Census. In addition, the Redistricting Data Office will continue to work with each State to ensure it is prepared to participate in Phase 2 and Phase 3: Delivery of the Decennial 2010 Census Redistricting Data. Every State, regardless of its participation in Phase 2, will receive the official redistricting data sets, as required by Pub. L. 94-171.
