**SUPPLEMENTARY INFORMATION:**

**I. Background**

On February 13, 2007, Maryland submitted a formal revision to its Title V operating permit program. The revisions amend The Code of Maryland Administrative Regulations' (COMAR) incorporation by reference citations to ensure that future changes to the Federal Acid Rain program will continue to be incorporated into Maryland's regulations.

**II. Summary of Title V Program Revision**

Both COMAR 26.11.02.01 and 26.11.03.01 currently incorporate by reference the Federal Acid Rain Program. These revisions will update COMAR 26.11.02.01 and COMAR 26.11.03.01 to ensure that future changes to the Federal program will continue to be incorporated by reference into Maryland's regulations.

**III. Final Action**

EPA is approving this revision to the Maryland operating permit program. EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comment. However, in the "Proposed Rules" section of today's **Federal Register**, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision if adverse comments are filed. This rule will be effective on June 25, 2007 without further notice unless EPA receives adverse comment by May 25, 2007. If EPA receives adverse comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect. EPA will address all public comments in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

**IV. Statutory and Executive Order Reviews**

*A. General Requirements*

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply,

Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal requirement, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal standard.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C.

272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

*B. Submission to Congress and the Comptroller General*

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

*C. Petitions for Judicial Review*

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by *June 25, 2007*. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action approves changes to Maryland's Title V operating permit program and may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this Action Apply to Me?

This action is directed to the public in general. It simply announces the submission of a draft final rule to the U. S. Department of Agriculture (USDA) and does not otherwise affect any specific entities. This action may, however, be of particular interest to producers or registrants of a biochemical or microbial pesticide product. This action also may affect any person or company who might petition the Agency for new tolerances for biochemical or microbial pesticides, or hold a pesticide registration with existing tolerances, or any person or company who is interested in obtaining or retaining a tolerance in the absence of a registration, that is, an import tolerance for biochemical or microbial pesticides. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in this action. If you have any questions regarding this action, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

###### B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to using [regulations.gov](http://www.regulations.gov), you may access this **Federal Register**

document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

##### II. What Action is EPA Taking?

Section 25(a)(2) of FIFRA requires the Administrator to provide the Secretary of Agriculture with a copy of any final regulation at least 30 days before signing it for publication in the **Federal Register**. The draft final rule is not available to the public until after it has been signed by EPA. If the Secretary comments in writing regarding the draft final rule within 15 days after receiving it, the Administrator shall include the comments of the Secretary, if requested by the Secretary, and the Administrator's response to those comments in the final rule when published in the **Federal Register**. If the Secretary does not comment in writing within 15 days after receiving the draft final rule, the Administrator may sign the final rule for publication in the **Federal Register** anytime after the 15-day period.

##### III. Do Any Statutory and Executive Order Reviews Apply to this Notification?

No. This document is not a rule, it is merely a notification of submission to the Secretary of Agriculture. As such, none of the regulatory assessment requirements apply to this document.

##### IV. Will this Notification be Subject to the Congressional Review Act?

No. This action is not a rule for purposes of the Congressional Review Act (CRA), 5 U.S.C. 804(3), and will not be submitted to Congress and the Comptroller General. EPA will submit the final rule to Congress and the Comptroller General as required by the CRA.
