

repair construction at the MCR South Jetty should result, at worst, in the Level B harassment of small numbers of Steller sea lions, California sea lions, and Pacific harbor seals that haul-out in the vicinity of the proposed project area. While behavioral modifications, including temporarily vacating the area around the construction site, may be made by these species to avoid the resultant visual and acoustic disturbance, the availability of alternate areas within MCR and haul-out sites has led NMFS to determine that this action will have a negligible impact on Steller sea lion, California sea lion, and Pacific harbor seal populations in the area.

In addition, no take by Level A harassment (injury) or death is anticipated and harassment takes should be at the lowest level practicable due to incorporation of the mitigation measures mentioned previously in this document.

Authorization

NMFS has issued an IHA, pursuant to section 101(a)(5)(D) of the MMPA, to the ACOE for the potential harassment of small numbers of Steller sea lions, California sea lions, and harbor seals incidental to repair construction at the MCR South Jetty in Clatsop County, Oregon, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.
