Background

The FHWA, in cooperation with the Iowa Department of Transportation and Warren County, will prepare an EIS for the proposed Southwest Connector corridor study. The proposed project includes roadway improvements to provide a high-speed, 5-lane roadway between I-35 South/R35 and IA 5/South 11th Street.

The purpose of the SW Connector is to prepare for increased travel demand in and around Warren County, Des Moines, and West Des Moines. Construction of the proposed interchange and roadway will decrease congestion at the IA 5/I-35 south interchange and provide alternate means of travel between 11th Street and I-35 South as well as provide additional access to Des Moines, West Des Moines, and Warren County.

Alternatives under consideration include: (1) Taking no action; (2) widening existing roadways; and, (3) constructing a roadway on a new location. The build alternative will include consideration of various alignments and grades.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A series of public meetings will be held in 2007 and 2008. In addition, a public hearing will be held upon completion of the draft EIS. Public notice will be given of the time and place of the public meetings and public hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing.

A scoping meeting (the initial public meeting) will be held identifying significant issues to be addressed in the environmental impact statement. The date and location of the scoping meeting

have not yet been determined but will be advertised in various local media.

To ensure that the full range of issues related to this proposed action is addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA or Iowa Department of Transportation at the address provided in the caption **FOR FURTHER INFORMATION CONTACT**.
