

resources to carry out the submitted plan.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 hours per response.

Description of Respondents: Businesses or other for profit individuals.

Estimated Number of Respondents: 75.

Frequency of Responses: One time per invention.

Estimated Total Annual Burden on Respondents: 225 hours.

This data will be collected under the authority of 44 U.S.C.3506(c)(2)(A).

Copies of this information collection and related instructions can be obtained without charge from June Blalock, USDA, ARS, Office of Technology Transfer by calling 301-504-5989.

Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, such as through the use of appropriate automated, electronic, mechanical, or other technological collection techniques. Comments may be sent to USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1174, Beltsville, Maryland 20705-5131. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Richard J. Brenner,
Assistant Administrator.

BILLING CODE 3410-03-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 01-009-9]

Wildlife Services; Availability of a Supplemental Decision/Finding of No Significant Impact for Oral Rabies Vaccine Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability and request for comments.

SUMMARY: We are advising the public that we have prepared a proposed decision/finding of no significant impact relative to oral rabies vaccination programs in several States. Since the publication of our original environmental assessment and decision/finding of no significant impact in 2001, we have prepared, and made available to the public for comment, several supplemental environmental assessments and decisions/findings of no significant impact in order to reflect changes in the program. The decision/finding of no significant impact made available by this notice clarifies the term "contingency actions," which was used in a supplemental environmental assessment we prepared in 2004, and analyzes a type of contingency action called trap-vaccinate-release that was not analyzed as part of the proposed action in the 2004 supplemental environmental assessment. The new decision/finding of no significant impact is intended to facilitate planning and interagency coordination in the event of rabies outbreaks and to clearly communicate to the public the actions involved in the oral rabies vaccination program.

DATES: We will consider all comments that we receive on or before May 29, 2007. Unless we determine that new substantial issues bearing on the conduct of the oral rabies vaccine programs have been raised by public comments on this notice, the proposed decision/finding of no significant impact will become final and take effect upon the close of the comment period.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>, select "Animal and Plant Health Inspection Service" from the agency drop-down menu, then click "Submit." In the Docket ID column, select APHIS-2007-0055 to submit or view public comments and to view supporting and related materials available electronically. After the close of the comment period, the docket can be viewed using the "Advanced Search" function in Regulations.gov.

- *Postal Mail/Commercial Delivery:* Please send four copies of your comment (an original and three copies) to Docket No. 01-009-9, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. 01-009-9.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Dennis Slate, Rabies Program Coordinator, Wildlife Services, APHIS, 59 Chenell Drive, Suite 2, Concord, NH 03301; (603) 223-9623. To obtain copies of the documents discussed in this notice, contact Tara Wilcox, Operational Support Staff, WS, APHIS, 4700 River Road Unit 87, Riverdale, MD 20737-1234; phone (301) 734-7921, fax (301)734-5157, or e-mail: Tara.C.Wilcox@aphis.usda.gov. This notice and the proposed decision/finding of no significant impact are also posted on the APHIS Web site at http://www.aphis.usda.gov/wildlife_damage/nepa.shtml.

SUPPLEMENTARY INFORMATION:

Background

The Wildlife Services (WS) program in the Animal and Plant Health Inspection Service (APHIS) cooperates with Federal agencies, State and local governments, and private individuals to research and implement the best methods of managing conflicts between wildlife and human health and safety, agriculture, property, and natural resources. Wildlife-borne diseases that can affect domestic animals and humans are among the types of conflicts that APHIS-WS addresses. Wildlife is the dominant reservoir of rabies in the United States.

On December 7, 2000, a notice was published in the **Federal Register** (65 FR 76606-76607, Docket No. 00-045-1) in which the Secretary of Agriculture declared an emergency and transferred funds from the Commodity Credit Corporation to APHIS-WS for the continuation and expansion of oral rabies vaccination (ORV) programs to address rabies in the States of Ohio, New York, Vermont, Texas, and West Virginia.

On March 7, 2001, we published a notice in the **Federal Register** (66 FR 13697-13700, Docket No. 01-009-1) to solicit public involvement in the planning of a proposed cooperative

program to stop the spread of rabies in the States of New York, Ohio, Texas, Vermont, and West Virginia. The notice also stated that a small portion of northeastern New Hampshire and the western counties in Pennsylvania that border Ohio could also be included in these control efforts, and discussed the possibility of APHIS–WS cooperating in smaller-scale ORV projects in the States of Florida, Massachusetts, Maryland, New Jersey, Virginia, and Alabama. The March 2001 notice contained detailed information about the history of the problems with raccoon rabies in eastern States and with gray fox and coyote rabies in Texas, along with information about previous and ongoing efforts using ORV baits in programs to prevent the spread of the rabies variants or “strains” of concern.

Subsequently, on May 17, 2001, we published in the **Federal Register** (66 FR 27489, Docket No. 01–009–2) a notice in which we announced the availability, for public review and comment, of an environmental assessment (EA) that examined the potential environmental effects of the ORV programs described in our March 2001 notice. We solicited comments on the EA for 30 days ending on June 18, 2001. We received one comment by that date. The comment was from an animal protection organization and supported APHIS’ efforts toward limiting or eradicating rabies in wildlife populations. The commenter did not, however, support the use of lethal monitoring methods or local depopulation as part of an ORV program.

On August 30, 2001, we published a notice in the **Federal Register** (66 FR 45835–45836, Docket No. 01–009–3) in which we advised the public of APHIS’ decision and finding of no significant impact (FONSI) regarding the use of oral vaccination to control specific rabies virus strains in raccoons, gray foxes, and coyotes in the United States. That decision allows APHIS–WS to purchase and distribute ORV baits, monitor the effectiveness of the ORV programs, and participate in implementing contingency plans that may involve the reduction of a limited number of local target species populations through lethal means (*i.e.*, the preferred alternative identified in the EA). The decision was based upon the final EA, which reflected our review and consideration of the comments received from the public in response to our March 2001 and May 2001 notices and information gathered during planning/scoping meetings with State health departments, other State and local agencies, the Ontario Ministry of

Natural Resources, and the Centers for Disease Control and Prevention.

Following the August 2001 publication of our original decision/FONSI, we determined there was a need to expand the ORV programs to include the States of Kentucky and Tennessee to effectively stop the westward spread of raccoon rabies. Accordingly, we prepared a supplemental decision/FONSI to document the potential effects of expanding the programs. We published a notice announcing the availability of the supplemental decision/FONSI in the **Federal Register** on July 5, 2002 (67 FR 44797–44798, Docket No. 01–009–4).

Following the publication of the supplemental decision/FONSI in July 2002, we determined the need to further expand the ORV program to include the States of Georgia and Maine to effectively prevent the westward and northward spread of the rabies virus across the United States and into Canada. To facilitate planning, interagency coordination, and program management and to provide the public with our analysis of potential individual and cumulative impacts of the expanded ORV programs, we prepared a supplemental EA that addresses the inclusion of Georgia and Maine, as well as the 2002 inclusion of Kentucky and Tennessee, in the ORV program. In addition, we prepared a new decision/FONSI based on the supplemental EA that was published in the **Federal Register** on June 30, 2003 (68 FR 38669–38670, Docket No. 01–009–5).

Following publication of the 2003 supplemental EA and decision/FONSI, we determined the need to further expand the ORV program to include portions of National Forest System lands, excluding Wilderness Areas, within several eastern States. The National Forest System lands where APHIS–WS involvement could be expanded included the States of Maine, New York, Vermont, New Hampshire, Pennsylvania, Ohio, Virginia, West Virginia, Tennessee, Kentucky, Alabama, Georgia, Florida, North Carolina, South Carolina, Massachusetts, Maryland, and New Jersey. Cooperative rabies surveillance activities and/or baiting programs were already being conducted on various land classes, with the exception of National Forest System lands, in many of the aforementioned States. The programs’ primary goals were to stop the spread of a specific raccoon rabies variant or “strain” of the rabies virus. If not stopped, this strain could potentially spread to much broader areas of the United States and Canada and cause substantial increases in

public and domestic animal health costs because of increased rabies exposures. As numerous National Forest System lands are located within current and potential ORV barrier zones, it became increasingly important to bait these large land masses to effectively combat this strain of the rabies virus. In addition, we prepared a new decision/FONSI based on the supplemental EA that was published in the **Federal Register** on February 20, 2004 (69 FR 7904–7905, Docket No. 01–009–6).

Following the 2004 supplemental EA and decision/FONSI for expansion of the ORV program to include portions of National Forest System lands, we determined the need to further expand the ORV program to include 25 eastern States (Maine, New York, Vermont, New Hampshire, Pennsylvania, Ohio, Virginia, West Virginia, Tennessee, Kentucky, Alabama, Georgia, Florida, North Carolina, South Carolina, Massachusetts, Maryland, Connecticut, Rhode Island, Delaware, Indiana, Michigan, Mississippi, Louisiana and New Jersey), the District of Columbia, and Texas to effectively prevent the westward and northward spread of the rabies virus across the United States and into Canada. In addition, we prepared a new decision/FONSI based on the supplemental EA that was published in the **Federal Register** on September 23, 2004 (69 FR 56992–56993, Docket No. 01–009–7).

Following the 2004 supplemental EA and decision/FONSI, we determined the need to expand the ORV program to include portions of National Forest System lands, excluding Wilderness Areas, within the same 25 eastern States and the District of Columbia. As numerous National Forest System lands are located within current and potential ORV barrier zones, it had become increasingly important to bait these large land masses to effectively combat this strain of the rabies virus. Accordingly, we prepared a supplemental EA and decision/FONSI that served to update program needs and evaluate current data. Those documents were made available through a notice published in the **Federal Register** on December 8, 2005 (70 FR 72977–72978, Docket No. 01–009–8).

The purpose of the new 2007 decision/FONSI that we are making available through this notice is to clarify the term “contingency actions,” which is used in the 2004 supplemental EA. Clarification should facilitate planning and interagency coordination in the event of rabies outbreaks and clearly communicate to the public the actions involved in the ORV program. In addition, a type of contingency action

called trap-vaccinate-release (TVR) is analyzed in the 2007 decision document, as it was not analyzed as part of the proposed action in the 2004 supplemental EA. Analysis of TVR in the 2007 decision document does not involve any substantially new information and does not raise or create any new substantive issues or circumstances, thus APHIS-WS has determined that there is no need to supplement the 2004 EA with that analysis. The new 2007 decision/FONSI will serve to update and replace the previous decision/FONSI, dated September 9, 2004, for the 2004 supplemental EA.

The proposed decision/FONSI that is the subject of this notice, as well as the documents cited above that preceded it, have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1), and (4) APHIS's NEPA Implementing Procedures (7 CFR part 372).

The decision/FONSI may be viewed on the Regulations.gov Web site or in

our reading room. (Instructions for accessing Regulations.gov and information on the location and hours of the reading room are provided under the heading **ADDRESSES** at the beginning of this notice.) In addition, copies may be obtained by calling or writing to the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Done in Washington, DC, this 23rd day of April 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has received requests to conduct administrative reviews of various antidumping and countervailing

duty orders and findings with March anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews.

EFFECTIVE DATE: April 27, 2007.

FOR FURTHER INFORMATION CONTACT: Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 482-4697.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b)(2004), for administrative reviews of various antidumping and countervailing duty orders and findings with March anniversary dates.

Initiation of Reviews:

In accordance with section 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than March 31, 2008.

Antidumping Duty Proceedings	Period to be Reviewed
BRAZIL: Certain Hot-Rolled Carbon Steel Flat Products. A-351-828 Companhia Siderurgica Nacional. Companhia Siderurgica de Tubarao.	3/1/06 - 2/28/07
BRAZIL: Certain Orange Juice. A-351-840 Coinbra-Frutesp S.A.. Fischer S/A Agroindustria. Sucocitrico Cutrale Ltda..	8/24/05 - 2/28/07
FRANCE: Stainless Steel Bar. A-427-820 Ascometal S.A.. UGITECH S.A..	3/1/06 - 2/28/07
GERMANY: Stainless Steel Bar. A-428-830 BGH Edelstahl Freital. GmbH/BGH Edelstahl Lippendorf GmbH/BGH Edelstahl Lugau GmbH/BGH Edelstahl Siegen GmbH. Schmiedewerke Groditz GmbH.	3/1/06 - 2/28/07
ITALY: Stainless Steel Bar. A-475-829 Acciaierie Valbruna S.p.A..	3/1/06 - 2/28/07
REPUBLIC OF KOREA: Certain Cut-to-Length Carbon Steel Plate ¹ . A-580-836 TC Steel. DSEC, a subsidiary of Daewoo Shipbuilding & Marine Engineering.	2/1/06 - 1/31/07
THAILAND: Circular Welded Carbon Steel Pipes and Tubes. A-549-502 Saha Thai Steel Pipe Company, Ltd..	3/1/06 - 2/28/07
THE PEOPLE'S REPUBLIC OF CHINA: Certain Tissue Paper Products ² . A-570-894 Foshan Sansico Co., Ltd.. Guangzhou Baxi Printing Products Limited. Guilin Qifeng Paper Co., Ltd.. Guilin Samsam Paper Products Ltd.. Max Fortune Industrial Limited/Max Fortune (FETDE) Paper Products Co., Ltd.. PT Grafitecindo Ciptaprima.	3/1/06 - 2/28/07
