Fisheries of the Exclusive Economic Zone Off Alaska; Allocating Bering Sea/Aleutian Islands Fishery Resources; American Fisheries Act Sideboards

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of availability; request for comments.

SUMMARY: The North Pacific Fishery Management Council (Council) has submitted Amendment 80 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) to NMFS for review. If approved, Amendment 80 would allocate several Bering Sea and Aleutian Islands (BSAI) non-pollock trawl groundfish species among trawl fishing sectors, and facilitate the formation of harvesting cooperatives in the non-American Fisheries Act (AFA) trawl catcher/processor sector. Amendment 80 is necessary to increase resource conservation and improve economic efficiency for harvesters who participate in the BSAI groundfish fisheries. This proposed amendment also is necessary to implement recent changes to the Magnuson-Stevens Fishery Conservation and Management Act (MSA) that modify the allocation of groundfish resources in the BSAI to the Western Alaska Community Development Quota (CDQ) Program, and statutory mandates that define who is eligible to harvest fish in the non-AFA catcher/processor sector for a defined list of non-pollock groundfish species in the BSAI. This action is intended to promote the goals and objectives of the MSA, the FMP, and other applicable laws. The amendment is available for public review and comment.

DATES: Comments on Amendment 80 must be received on or before June 29, 2007.

ADDRESSES: Send written comments to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn: Ellen Sebastian, Records Officer. Comments may be submitted by:

- Hand delivery: 709 West 9th Street, Room 420A, Juneau, AK;

Copies of the Amendment 80 Environmental Assessment/Regulatory Impact Review/Initial Regulatory Flexibility Analysis (EA/RIR/IRFA) prepared for this action are available from the NMFS Alaska Region website at www.fakr.noaa.gov or from the mailing and street addresses listed above.

FOR FURTHER INFORMATION CONTACT: Glenn Merrill, 907-586-7228 or glenn.merrill@noaa.gov.

SUPPLEMENTARY INFORMATION: The MSA requires that each regional fishery management council submit any FMP or FMP amendment it prepares to NMFS for review and approval, disapproval, or partial approval by the Secretary. The MSA also requires that NMFS, upon receiving an FMP amendment, immediately publish a notice in the **Federal Register** that the FMP or amendment is available for public review and comment. This requirement is satisfied by this notice of availability for Amendment 80.

Amendment 80 and Bycatch Reduction Efforts in the BSAI

Amendment 80 and its implementing regulations would continue initiatives by the Council and NMFS to reduce bycatch of fish species in the BSAI non-pollock trawl groundfish fisheries. Amendment 80 would reduce the amount of halibut and crab bycatch, known as prohibited species catch (PSC), that may be taken while non-AFA trawl catcher/processors are fishing for groundfish in the BSAI. These measures would consider efficiency in utilization of fishery resources, minimize costs, and further minimize bycatch to the extent practicable, thereby meeting the objectives of National Standards 5, 7, and 9 of the MSA.

Amendment 80 would facilitate this and other bycatch reductions through specific economic incentives provided by a limited access privilege program (LAPP). This LAPP would encourage improved retention and utilization of fishery resources by allocating specific amounts of certain species of non-pollock groundfish, and halibut and crab PSC, to non-AFA trawl catcher processors; and authorize the formation of cooperatives that would receive exclusive harvest privileges for a portion of these fishery resources.

One of the primary reasons for the relatively high discard rates of groundfish by non-AFA trawl catcher/processors is the nature of the fisheries in which those vessels participate. The non-AFA trawl catcher/processor sector primarily participates in non-pollock groundfish fisheries. The non-pollock groundfish fisheries are primarily comprised of groups of species that share similar habitat (e.g., flatfish fisheries such as rock sole, flathead sole, and yellowfin sole). Because these species occur together, they are typically harvested together. When a non-AFA trawl catcher/processor retrieves its net, very often multiple
