National Center for Environmental Health/Agency for Toxic Substances and Disease Registry

The Program Peer Review Subcommittee (PPRS) of the Board of Scientific Counselors (BSC), National Center for Environmental Health/Agency for Toxic Substances and Disease Registry (NCEH/ATSDR): Meeting.

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), NCEH/ATSDR, CDC, announces the following meeting of the aforementioned subcommittee:

Time and Date: 1 p.m.–5 p.m. Eastern Daylight Saving Time, May 16, 2007.

Place: 1825 Century Boulevard, Atlanta, Georgia 30345.

Status: Open to the public, limited only by the space available.

Purpose: Under the charge of the BSC, NCEH/ATSDR, the PPRS will provide the BSC, NCEH/ATSDR with advice and recommendations on NCEH/ATSDR program peer review. They will serve the function of organizing, facilitating, and providing a long-term perspective to the conduct of NCEH/ATSDR program peer review.

Matters To Be Discussed: Review and approve previous meeting minutes; report on Site Specific Activities review; and a discussion of Preparedness and Emergency Response peer review: breadth and approach

of the review, areas of expertise required for the review, nominations for a PPRS panel member, a chairperson, peer reviewers, and partners and customers. Agenda items are subject to change as priorities dictate.

Supplementary Information: This meeting is scheduled to begin at 1 p.m. Eastern Daylight Saving Time. To participate, please dial 877/315-6535 and enter conference code 383520. Public comment period is scheduled for 3-3:10 p.m.

Contact Person for More Information: Sandra Malcom, Committee Management Specialist, Office of Science, NCEH/ATSDR, M/S E-28, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone 404/498-0622. The deadline for notification of attendance is May 11, 2007.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both CDC and ATSDR.

Dated: April 25, 2007.

Elaine L. Baker,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Proposed Collection Comment Request; Monitoring and Evaluation of the NIDA Goes Back to School National Dissemination Campaign; Revision

Summary: In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collection of information, the National Institute on Drug Abuse (NIDA), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval. The proposed information collection was previously published in the **Federal Register** on February 21, 2007 (Volume 72, #34) page 7893-7894 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Monitoring and Evaluation of the NIDA Goes Back

to School National Dissemination Campaign. *Type of Information Collection Request:* NEW. *Need and Use of Information Collection:* This is a request for a one-time clearance to collect information on the use of the NIDA Goes Back to School (NGBTS) dissemination materials that can be requested by interested persons from the NIDA Internet site. The National Institute on Drug Abuse (NIDA) launched an initiative to increase awareness of the Institute and its mission to bring the power of science to bear on the treatment and prevention of drug abuse and addiction. NIDA has been developing science education materials for grades K-12 for use by students, teachers, parents, school counselors, school health educators, school resources officers, community organizers, and state and local government agencies. The number of requestors has been an average of 7,500 per year. These large numbers indicate that the dissemination reach is considerable. The pattern of requests also indicates that the number of requests increases dramatically in the early weeks after a dissemination activity is launched. The purpose of this information collection is to determine the level of use by school personnel and community leaders who request the NGBTS materials, and if there is a difference in use level between those requestors responding to a campaign activity and those requestors who were not reached by campaign activities. The information will identify barriers to the use of the materials among these occupational groups and the populations they serve. It will help make the materials more productive in raising the awareness of the harms from substance abuse among children, youth, and parents. It will be used to refine the focus of the dissemination activities, so that dissemination resources are used more productively. The information will be collected from requestors who have requested NIDA NGBTS materials using the requestor forms from the NIDA site, from October 2003 to September 2005. All information collection in the evaluation will be conducted on-line. The estimated total time for a survey is 5 minutes. Prior to the monitoring and evaluation study, the information collection instruments will be pilot-tested via telephone interview format, with a sample of 8 individuals who have requested these materials during the chosen study years. The surveys will include the following elements: (1) Use of the NGBTS materials, (2) Opinion of the NGBTS materials, (3) Respondent information on gender, present
