Abstract: The Department of Education's Institute for Education Sciences has commissioned this evaluation as a response to the current need for experimental research about the impacts of adolescent literacy programs on reading and academic outcomes of struggling readers. This study focuses on literacy across the curriculum intervention that emphasizes literacy instruction throughout a high school student's day. High school students from diverse types of school districts across at least two of the states in the Midwest region will be tested in literacy and other student achievement data will be collected from school records. Classroom instruction will be observed throughout the course of the intervention. District and building administrators will be interviewed about the intervention and the need for large-scale district and school reform in literacy instruction.

Great Lakes Initiative (GLI) Toxicity Data Clearinghouse

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Great Lakes Initiative Toxicity Data Clearinghouse (Clearinghouse) is available for use by States, Tribes, and other interested parties. The online Clearinghouse, developed in cooperation with the United States Environmental Protection Agency (USEPA) Headquarters, Regions 2, 3, and 5, and the Great Lakes States and Tribes, acts as a central location for toxicity data, exposure parameters, and supporting documents used in deriving water quality criteria and guidance values in the Great Lakes Basin.

FOR FURTHER INFORMATION CONTACT: Brian Thompson, Water Quality Branch (WQ-16J), U.S. EPA, Region 5, Water Division, 77 West Jackson Blvd., Chicago, IL 60604. (312) 353-6066, thompson.brian@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

The Clearinghouse was developed to support implementation of the Final Water Quality Guidance for the Great Lakes System (GLI). Data from the Clearinghouse can be shared among States and Tribes to assist them in developing or updating numeric water quality standards and guidance values for the protection of aquatic life, human health, and wildlife. In particular, States and Tribes can use the information in the Clearinghouse to help derive criteria for pollutants without specific numeric criteria published in the GLI (40 CFR Part 132).

Data in the Clearinghouse can be viewed online or downloaded in spreadsheet format. The Clearinghouse includes PDF versions of "fact sheets," which provide methodology information on how State agencies and USEPA derive criteria and guidance values. The Clearinghouse also includes links to GLI-related documents, including Federal Register notices and technical support documents, as well as formulas that allow users to calculate criteria according to GLI methodologies. To access the Clearinghouse go to <http://www.epa.gov/gliclearinghouse>.
