

Warehouse operators are responsible for the quantity and quality of commodities stored in emergency and temporary storage space to the same extent as their liability for licensed storage space. All commodities stored in emergency and temporary storage space are considered a part of the warehouse operator's commingled inventory.

Warehouse Security

CCC strongly recommends that warehouse operators review their warehouse security plans and conduct a prudent risk assessment in connection with their application for emergency and temporary storage space. Warehouse operators may want to pay particular attention to threats that may not have been considered significant in the past and consider restricting access to facilities to authorized personnel only.
