SUPPLEMENTARY INFORMATION: *Title:* Alternative Voting Methods Study.

OMB Number: Pending.

Type of Review: Regular submission.

Needs and Uses: Section 241 of the Help America Vote Act (HAVA) requires the U.S. Election Assistance Commission (EAC) to periodically study election administration issues with the goal of promoting voting methods and improving election administration. HAVA Section 241(b)(10) instructs the EAC to study the feasibility and advisability of conducting elections for Federal office on different days, at different places, and during different hours. The study should include a discussion of the advisability of establishing a uniform poll closing time and establishing:

(A) A legal public holiday under section 6103 of title 5 United States Code, as the date on which general elections for Federal office are held;

(B) The Tuesday after the 1st Monday in November, in every even numbered year, as a legal public holiday under such section;

(C) A date other than the Tuesday next after the 1st Monday in November, in every even numbered year as the date on which general elections for Federal office are held; and

(D) Any date described in subparagraph (C) as a legal public holiday under such section.

To provide information to the States and the Congress on the feasibility and advisability of using alternative days, times, and places to conduct Federal elections, the EAC seeks to survey voters to better understand their motivations and perceptions of impediments to voting. The survey will provide insights into the public's perceptions of particular aspects of the voting process.

Affected Public: U.S. citizens and residents of Puerto Rico.

Number of Respondents: 3,000.

Responses per Respondent: 1.

Estimated Burden Per Response: .25 hours.

Estimated Total Annual Burden Hours: 750.

Frequency: Once.

Information will be collected through a statistically valid survey of 3,000 U.S.

citizens and residents of Puerto Rico to determine how they either do respond to alternative voting methods (if in a state that offers them) or would respond to alternative voting methods (if in a state that does not allow them). This survey will be representative of the 50 U.S. states and Puerto Rico. The topics that will be explored include, but are not limited to:

a. Voting by mail.
b. Voting at consolidated polling center.

c. Voting online.
d. Voting earlier/later on Election Day.

e. Voting on weekend day.
f. Voting on day other than first Tuesday in November.

g. Making the day on which Federal elections are held a Federal holiday.

h. No alternative voting method, prefer status quo.

The survey will gather data regarding each respondent's background. Background information will include, but is not limited to: (1) Respondents' voter registration history, (2) respondents' voting history, and (3) standard demographic questions covering age, ethnicity, education, employment status, and income bracket.
