**SUPPLEMENTARY INFORMATION:**

#### Discussion of Specific Rule Changed

The Office is revising § 6.1 to incorporate classification changes and modifications that became effective January 1, 2007, or in earlier revisions of the Nice Agreement, as listed in the International Classification of Goods and Services for the Purposes of the Registration of Marks (9th ed., 2006),

published by WIPO. In addition, the Office is revising the punctuation and spelling of certain wording so that it will conform to what appears in the Nice Agreement.

These revisions have been incorporated into the Nice Agreement. As a signatory to the Nice Agreement, the United States adopts these revisions pursuant to Article 1.

The following changes are noted:

Class 4 is amended to change “wicks” to “wicks for lighting.”

Class 5 is amended to change “pharmaceutical, veterinary, and sanitary preparations” to

“pharmaceutical and veterinary preparations; sanitary preparations for medical purposes;”

Class 9 is amended to delete “electric” after “surveying;” and to add “apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity;” before “apparatus for recording.”

Class 16 is amended to delete “playing cards.” Playing cards are classified in Class 28.

Class 21 is amended to delete “(not of precious metal or coated therewith)” after “Household or kitchen utensils and containers.”

Class 29 is amended to add “frozen” before “dried;” to delete “fruit sauces” and replace it with “compotes.”

Class 42 is amended to delete “Legal services.”

Class 45 is amended to add “Legal services” and to reorder the manner in which the services are listed in the class.

#### Rule Making Requirements

*Administrative Procedure Act:* The amendments in this final rule are procedural in nature as they only reorganize the international classifications of goods and services and modify the form of the wording. The reorganization and modification have been established by the Committee of Experts of the Nice Union and have been promulgated in the volume entitled International Classification of Goods and Services for the Purposes of the Registration of Marks (9th ed. 2006). Therefore, prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553(b)(A), or any other law. Furthermore, pursuant to 5 U.S.C. 553(b)(B), notice and an opportunity for public comment are unnecessary since the amendments are required by the Nice Agreement, to which the United States is a signatory.

*Regulatory Flexibility Act:* As prior notice and an opportunity for public comment are not required pursuant to 5

U.S.C. 553 (or any other law), the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable.

*Executive Order 13132*: This final rule does not contain policies with federalism implications, as that term is defined in Executive Order 13132 (August 4, 1999).

*Executive Order 12866*: This final rule has been determined to be not significant for purposes of Executive Order 12866 (September 30, 1993).

*Paperwork Reduction Act*: This final rule does not involve information collection requirements which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

RIN 2060-AN40

### Final Rule on the Treatment of Data Influenced by Exceptional Events; Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Correcting Amendments.

**SUMMARY:** The EPA issued a final rule on March 22, 2007, entitled "Treatment of Data Influenced by Exceptional Events." The rule governs the review and handling of air quality monitoring data determined to be influenced by exceptional events. This document makes minor corrections to language contained in the regulatory text for the rule.

**EFFECTIVE DATE:** This document is effective on May 22, 2007.

**FOR FURTHER INFORMATION CONTACT:** For questions regarding these corrections, contact Mr. Larry Wallace, U.S. Environmental Protection Agency, Office of Air Quality Planning and Standards, Mail Code C539-02, Research Triangle Park, NC 27711, phone number (919) 541-9006 or by e-mail at: [wallace.larry@epa.gov](mailto:wallace.larry@epa.gov).

#### SUPPLEMENTARY INFORMATION:

#### Background

The EPA issued the final rule on "The Treatment of Data Influenced by Exceptional Events" on March 22, 2007, 72 FR 13560.

#### Need for Correction

As published, the final regulations contain errors which may prove to be misleading and are in need of clarification. EPA finds that there is good cause to make these corrections without providing for notice and comment, and for making these corrections effective immediately upon publication, because neither notice or comment, nor a delayed effective date, is necessary and would not be in the public interest due to the nature of the corrections which are minor, technical, and non-controversial.

The final action, without notice and comment, and the immediate effective date for this action is authorized under 5 U.S.C. 553(d)(3)(B) and 553(d)(3) which allows an effective date less than 30 days after publication if "as otherwise provided by the agency for cause found and published with the rule." As indicated above, the final rule

on Exceptional Events was published after notice and comment on March 22, 2007 and becomes effective on May 21, 2007, 60 days from publication. Thus, additional notice and comment for these minor technical corrections is unnecessary under 5 U.S.C. 553(b)(3)(B) and EPA finds that good cause exists for these corrections to become effective immediately.

#### Corrections of Rule

In the final rule for "The Treatment of Data Influenced by Exceptional Events", 72 FR 13560, March 22, 2007, correction is being made to the regulatory text of the rule beginning at 40 CFR 50.14(c) and to the title of 40 CFR part 51. This action makes a correction under the section entitled "Treatment of air quality monitoring data influenced by exceptional events." Under § 50.14(c)(2) entitled "Schedules and procedures", "Flagging of data", change subsection (i) to remove the reference to 40 CFR 58.16 and to read as follows:

(i) A State shall notify EPA of its intent to exclude one or more measured exceedances of an applicable ambient air quality standard as being due to an exceptional event by placing a flag in the appropriate field for the data record of concern which has been submitted to the AQS database.

The final correction being made to the rule begins on page 13581, column two. Change the title of the section to read as follows:
