

Are There Changes in the Estimates From the Last Approval?

There is a decrease of 621 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. EPA's original estimate included many "one-time" costs (e.g., time spent gaining familiarity with the applicable rules) that are not expected to be recurring. The burden estimate for the next three years does not include these "one-time" costs, and therefore the burden estimate has decreased.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 2005, the President signed into law the Department of Interior, Environment, and Related Agencies Appropriations Act, 2006, Pub. L. 109-54 (Appropriations Act), which provided appropriated funds for the Environmental Protection Agency and other Federal departments and agencies. The Appropriations Act, among other points, addressed intentional dosing human toxicity studies for pesticides and directed the Agency to establish an independent Human Subjects Review Board to review such studies. On February 6, 2006 the Agency published a final rule for protections for subjects in human research (71 FR 6138) that called for creating a new, independent Human Studies Review Board and described its responsibilities in the following language:

The Human Studies Review Board shall comment on the scientific and ethical aspects of research proposals and reports of completed research with human subjects submitted by EPA for its review and on request, advise EPA on ways to strengthen its programs for protection of human subjects of research. 40 CFR 26.1603(b)

A charter for the Human Studies Review Board dated February 21, 2006 was issued in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2 Section 9(c) stating that the HSRB will:

Provide advice, information and recommendations on issues related to scientific and ethical aspects of human subjects research. The major objectives are to provide advice and recommendations on: (a) Research proposals and protocols; (b) reports of completed research with human subjects; and (c) how to strengthen EPA's programs for protection of human subjects.

This notice requests nominations of candidates to serve as a member of the HSRB in the area of Human Health Risk Assessment. General information concerning the HSRB can be found on the EPA Web site at <http://www.epa.gov/osa/hsrb/>.

Process and Deadline for Submitting Nominations

Any interested person or organization may nominate individuals to be considered as prospective candidates for the HSRB. Additional avenues and resources may be utilized in the

solicitation of nominees to encourage a broad pool of expertise. Nominees should be experts who have sufficient professional qualifications, including training and experience, to be capable of providing expert comments on the ethical and/or scientific issues that may be considered by the HSRB. EPA is seeking nominees who are nationally recognized experts in human health risk assessment, specifically expertise in epidemiology, exposure analysis, public health and/or human subject research regulations. All nominations should include: (1) A current curriculum vitae (C.V.) which provides the nominee's educational background, qualifications, leadership positions in national associations or professional publications, relevant research experience and publications; and (2) a summary of the above in a biographical sketch ("biosketch") of no more than one page.

The qualifications of nominees received in reply to this notice will be assessed in terms of the specific expertise sought for the HSRB. Qualified nominees who agree to be considered further will be included in a smaller subset (known as the "Short List"). This Short List consisting of nominee's name and biosketch will be posted for public comment on the OSA Web site <http://www.epa.gov/osa/index.htm>. The public will be requested to provide relevant information or other documentation on nominees that OSA should consider in evaluating the candidates. Public comments will be accepted for 14 calendar days on the Short List. Board members will be selected from the Short List. Short List candidates not selected for HSRB membership may be considered for future HSRB membership as vacancies become available or as HSRB consultants for future HSRB meetings. The Agency estimates posting the names of Short List candidates sometime in late July. However, please be advised that this is an approximate time frame and the date could change. Thus, if you have any questions concerning posting of Short List candidates on the OSA Web site, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

For the HSRB, a balanced panel is characterized by inclusion of members who possess the necessary domains of knowledge, the relevant technical perspectives, and the collective breadth of experience to adequately address the Agency's charge. Interested candidates who are employees of a federal department or agency (other than EPA) or are members of another federal advisory committee are eligible to serve on the HSRB, and their nominations are

welcome. Other factors that will be considered include: Availability to participate in the Board's scheduled meetings, absence of any conflicts of interest and absence of an appearance of a lack of impartiality, independence with respect to the matters under review, and public comments in response to the Short List. Though financial conflicts of interest or the appearance of a lack of impartiality, lack of independence, or bias may lead to nonselection, the absence of such concerns does not ensure that a candidate will be selected to serve on the HSRB. Numerous qualified candidates are likely to be identified. Selection decisions will involve careful weighing of a number of factors including, but not limited to, the candidates' areas of expertise and professional qualifications, and responses to the Short List in achieving an overall balance of different perspectives on the Board.

People who are hired to serve on the Board are subject to the provisions of 5 CFR part 2634, Executive Branch Financial Disclosure, as supplemented by the EPA in 5 CFR part 6401. In anticipation of this requirement, each nominee will be asked to submit a Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency (EPA Form 3110-48 [5-02]). This form seeks information regarding the candidate's financial interests, the candidate's employment, stocks, and bonds, and where applicable, sources of research support. However, this form is confidential and will not be disclosed to the public. The EPA will evaluate the candidate's financial disclosure form to assess whether there are financial conflicts of interest, appearance of a lack of impartiality, or any prior involvement with the development of the documents under consideration, including previous scientific peer review, before the candidate is considered further for service on the HSRB.

Candidates selected from the Short List will be appointed to the HSRB. HSRB members are to perform several activities including reviewing extensive background materials between meetings of the Board, preparing draft responses to Agency charge questions, attending Board meetings, participating in the discussion and deliberations at these meetings, drafting assigned sections of meeting reports, and reviewing and helping to finalize Board reports.

Nominations should be submitted by one of the methods listed under **ADDRESSES**.

The Agency will consider all nominations for HSRB membership that are received on or before June 25, 2007. However, final selection of members is a discretionary function of the Agency and will be announced on the OSA Web site <http://www.epa.gov/osa/index.htm> soon after comments are received on the Short List.

Science Advisor.
