### Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on May 17, 2007, a proposed Consent Decree in *United States v. Kerr-McGee Corporation*, Civil Action No. 07-CV-01034-WDM-MJW as lodged with the United States District Court for the District of Colorado.

The Consent Decree resolves claims by the United States against Kerr-McGee Corporation ("Kerr-McGee") under section 113 of the Clean Air Act, 42 U.S.C. 7413 at Kerr-McGee's Cottonwood Wash, Ouray, and Bridge compressor stations located on tribal lands in the Uinta Basin and in the Denver-Julesburg Basin in Weld County, Colorado. The Consent Decree will require Kerr-McGee to install low emission dehydrators, enclose flares on certain condensate storage tanks and replace pneumatic controllers with "low bleed" components and also install either catalytic controls on large engines or replace old engines with newer, lower emitting units. The decree establishes federally enforceable limits on the compressor stations to restrict the sources' potential to emit, keeping it below the Clean Air Act's major source threshold until EPA finalizes a Synthetic Minor Source Permitting Program in Indian Country. The decree also requires Kerr-McGee to pay a civil penalty of \$150,000 to the United States and \$50,000 to the State of Colorado and perform supplemental environmental projects valued at \$250,000.
