Annexes A, B, and/or C of the Stockholm Convention. Three of the five proposals were for industrial chemicals:
- Pentabromodiphenyl ether.
- Hexabromobiphenyl.
- Perfluorooctane sulfonate.
Two of the five proposals were for pesticides:
- Lindane.
- Chlordecone.
In accordance with the procedure laid down in Article 8 of the Stockholm Convention and discussed in Unit II.B., during the November meeting POPRC examined the proposals and applied the screening criteria in Annex D of the Stockholm Convention. With regard to all five chemicals, POPRC decided that it was satisfied that the screening criteria had been fulfilled and that further work should therefore be undertaken to develop risk profiles. Therefore, through the Secretariat, requested that Parties and observers provide information relevant to POPRC's development of risk profiles for the five chemicals listed in this unit. In the Federal Register of January 30, 2006 (71 FR 4913) (FRL–7758–9), EPA invited commenters to provide EPA with information for the risk profiles.

The second meeting of POPRC took place November 6–10, 2006, in Geneva, Switzerland. EPA provided notice of this meeting and POPRC's intention to consider risk profiles for the five chemicals in the Federal Register of October 6, 2006 (71 FR 59108) (FRL–8099–2). Information about the November POPRC meeting is available at the Stockholm Convention website http://www.pops.int/documents/meetings/poprc_2/meeting_docs.htm.

In accordance with the procedure laid down in Article 8 of the Stockholm Convention and discussed in Unit II.B., during the November 2006 meeting POPRC examined the draft risk profiles with respect to the requirements in Annex E of the Stockholm Convention. With regard to all five chemicals, POPRC decided that, based on finalized risk profiles, these chemicals were likely, as a result of their long-range environmental transport, to lead to significant adverse-human health and environmental effects such that global action is warranted. Additionally, in accordance with paragraph 7(a) of Article 8 of the Stockholm Convention, POPRC invited Parties and observers to submit to the Secretariat the information specified in Annex F to the Stockholm Convention by February 9, 2007. In the Federal Register of December 20, 2006 (71 FR 76325) (FRL–8109–1), EPA invited commenters to provide EPA with risk management information to support the development of its submission to the Secretariat. On February 9, 2007, EPA provided comments to the Secretariat.

POPRC, through ad hoc working groups, is preparing draft risk management evaluations that are to include an analysis of possible control measures, which in accordance with Annex F of the Stockholm Convention (“Information on Socio-Economic Considerations”) should encompass “the full range of options, including management and elimination.” The risk management evaluations include socio-economic considerations associated with possible control measures (see Unit II.C.) and reflect due regard for the differing capabilities and conditions among the Parties. Additionally, these documents should discuss any specific exemptions or acceptable purposes being considered. Following the receipt of comments, the ad hoc working groups will further refine the draft risk management evaluations, which will then be considered by the full POPRC in November 2007 and proceed as discussed in Unit II.B.

H. What is the Status of Chemicals at the Risk Profile Stage?

As stated in Unit II.G., the second meeting of POPRC took place on November 6–10, 2006, in Geneva, Switzerland. EPA provided notice of this meeting and POPRC's intention to consider proposals for the five chemicals listed in this unit in the Federal Register of October 6, 2006. Information about the November POPRC meeting is available at the Stockholm Convention website http://www.pops.int/documents/meetings/poprc_2/meeting_docs.htm.

POPRC had before it five proposals which were submitted for its consideration by Parties to the Stockholm Convention, for addition to Annexes A, B, and/or C of the Stockholm Convention.

Two of the five proposals were for industrial chemicals:
- Octabromodiphenyl ether.
- Short-chained chlorinated paraffins.
One of the five proposals was for a chemical with both industrial and pesticidal uses:
- Pentachlorobenzene.
Two of the five proposals were for pesticides:
- Alpha-hexachlorocyclohexane.
- Beta-hexachlorocyclohexane.
In accordance with the procedure laid down in Article 8 of the Stockholm Convention and discussed in Unit II.B., during the November meeting POPRC examined the proposals and applied the screening criteria in Annex D of the Stockholm Convention. With regard to all five chemicals, POPRC decided that it was satisfied that the screening criteria had been fulfilled and, in accordance with paragraph 4(a) of Article 8 of the Stockholm Convention, POPRC invited Parties and observers to submit to the Secretariat the information specified in Annex E to the Stockholm Convention by February 9, 2007. In the Federal Register of December 20, 2006, EPA invited commenters to provide EPA with risk profile information to support the development of its submission to the Secretariat. EPA provided comments to the Secretariat on February 9, 2007.

POPRC, through ad hoc working groups, has prepared draft risk profiles for each of the chemicals to, as noted in Annex E of the Stockholm Convention, “evaluate whether the chemical is likely, as a result of its long-range environmental transport, to lead to significant adverse human health and/or environmental effects, such that global action is warranted.” The draft risk profiles also further evaluate and elaborate on the information referred to in Annex D of the Stockholm Convention and include, as far as possible, the information listed in Annex E of the Stockholm Convention. Following the receipt of comments, the ad hoc working groups will further refine the draft risk profiles, which will then be considered by the full POPRC in November 2007, and proceed as discussed in Unit II.B.

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies
DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Request for Quality Measures for Medicaid Home and Community-Based Services

AGENCY: Agency for Healthcare Research and Quality (AHRQ); DHHS.

ACTION: Notice of request for measures.

SUMMARY: The Agency for Healthcare Research and Quality (AHRQ) is soliciting the submission of survey instruments and items that could be used to measure the quality of Medicaid home and community-based service (HCBS) programs. Specifically, AHRQ is interested in metrics related to assessing the performance of such programs, client functional outcomes and client experience of, and satisfaction with, Medicaid HCBS services and supports. This initiative is in response to the mandate within the Deficit Reduction Act (DRA) of 2005, the Social Security Act (the Act), HCBS as a State plan option under Section 1115 of the Act, and HCBS under Section 1915(b), (c), or (d) of the Social Security Act (the Act), HCBS as a State plan option under Section 1115 of the Act, and HCBS under Section 1915(j), and HCBS under Section 1115 of the Act, and HCBS demonstrations, as authorized under Section 6071 of the Deficit Reduction Act of 2005. For the purpose of this call for measures, the listed services are interpreted broadly to include Medicaid home health care services, Medicaid personal care services, and Medicaid targeted case management services. Submitted materials should be designed to measure (i.e., quantify) program performance, client functional outcomes (including social role functioning), and/or client experience related to any of the following areas: The timeliness of determining need and providing services and supports,

For further information contact: D.E.B. Potter at the address above.

Supplementary Information

Submission Criteria

Items and instruments submitted must focus on evaluating the performance of home and community-based services, client experience of, and satisfaction with, these home and community-based services and supports, as well as related client functional outcomes. Such services are defined broadly to include at a minimum the array of services included as HCBS under Section 1915(b), (c), or (b) and (c) of the Social Security Act (the Act), HCBS as a State plan option under Section 1115 of the Act, and HCBS under Section 1115 of the Act, and HCBS demonstrations, as authorized under Section 6071 of the Deficit Reduction Act of 2005. For the purpose of this call for measures, the listed services are interpreted broadly to include Medicaid home health care services, Medicaid personal care services, and Medicaid targeted case management services. Submitted materials should be designed to measure (i.e., quantify) program performance, client functional outcomes (including social role functioning), and/or client experience related to any of the following areas: The timeliness of determining need and providing services and supports,
