Title: Application and Summary Report for an Emergency Exemption for Pesticides.

ICR numbers: EPA ICR No. 0596.09, OMB Control No. 2070-0032.

ICR status: This ICR is currently scheduled to expire on February 28, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection

instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizes EPA to grant emergency exemptions to states and Federal Agencies to allow an unregistered use of a pesticide for a limited time if EPA determines that emergency conditions exist. A section 18 action arises when growers and others encounter a pest problem on a site for which there is either no registered pesticide available, or for which there is a registered pesticide that would be effective but is not yet approved for use on that particular site. Section 18 also allows states to submit requests to EPA to grant unregistered pesticide use exemptions for public health and quarantine reasons.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 99 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 50.

Frequency of responses: 500 annually.

Estimated total average number of responses for each respondent: Not applicable.

Estimated total annual burden hours: 49,500 hours.

Estimated total annual costs: \$2,472,770. There are no capital investment or maintenance and operational costs for this ICR.

IV. Are There Changes in the Estimates from the Last Approval?

There is no change in the 49,500 hours in the total estimated respondent

burden compared with that identified in the ICR currently approved by OMB.

V. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
