BILLING CODE 5001-06-P

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 5, 2007.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725 17th Street, NW., Room 10222, Washington, DC 20503. Commenters are encouraged to submit responses electronically by E-mail to oir_submission@omb.eop.gov or via Fax to (202) 395-6974. Commenters should include the following subject line in their response "Comment: [insert OMB number], [insert abbreviated collection name, e.g., "Upward Bound Evaluation"]". Persons submitting comments electronically should not submit paper copies.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of

Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: May 29, 2007.

James Hyler,

Acting Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of Management.

Office of Postsecondary Education

Type of Review: Reinstatement.

Title: Financial Report for Grantees under the Title III Part A, Title III Part B, and the Title V Program Endowment Activities and Endowment Challenge Grant.

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 300.

Burden Hours: 900.

Abstract: This financial reporting form will be utilized for Title III Part A, Title III Part B and Title V Program Endowment Activities and Title III Part C Endowment Challenge Grant Program. The purpose of this Annual Financial Report is to have the grantees report annually the kind of investments that have been made, the income earned and spent, and whether any part of the Endowment Fund Corpus has been spent. This information allows us to give technical assistance and determine whether the grantee has complied with the statutory and regulatory investment requirements.

Requests for copies of the information collection submission for OMB review may be accessed from <http://www.edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3298. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to ICDocketMgr@ed.gov or Faxed to 202-245-6623. Please specify the complete

title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Western Area Power Administration

Eastern Plains Transmission Project, Colorado and Kansas

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of public meeting and additional opportunity for public review and comment.

SUMMARY: The U.S. Department of Energy (DOE), Western Area Power Administration (Western) issued a notice of intent (NOI) to prepare an Environmental Impact Statement (EIS) on August 2, 2006, for the Eastern Plains Transmission Project (EPTP or Transmission Project). This notice announces an additional public meeting to provide the public opportunity to review and comment on additional and revised transmission line routes and the scope of the EIS. A summary of comments previously received during the scoping meetings held in August and September 2006, and meetings held in February 2007, is available upon request or at <http://www.wapa.gov/transmission/eptp.htm>.

Western is proposing to participate with Tri-State Generation and Transmission Association, Incorporated (Tri-State) in the construction of the EPTP. Western's participation would be in exchange for 275 megawatts (MW) of capacity rights on the proposed transmission lines. The EIS will address the construction, operation, and maintenance of approximately 1,000 miles of high-voltage transmission lines and ancillary facilities, which include substations, fiber optic installations, access roads, and construction staging areas. The EIS will discuss alternatives such as Western's system alternatives and the no action alternative (no Federal action). The EIS will analyze and present environmental impacts compared to the existing baseline condition in which no Transmission Project facilities exist. The EIS also will include analyses of the environmental

impacts of Tri-State's proposed generation and other past, present and reasonably foreseeable projects in the EPTP area. The EIS will be prepared in accordance with the National Environmental Policy Act (NEPA) and DOE NEPA Implementing Procedures.

DATES: The public meeting will be held June 20, 2007. The meeting will be held between 5 and 8 p.m. The comment period will close July 5, 2007.

ADDRESSES: The public meeting will be held at the Miami-Yoder School, 420 S. Rush Road, Rush, CO 80833. Written comments, questions, and information on the scope of the EIS may be mailed, faxed, or e-mailed to Mr. Jim Hartman, Environmental Manager, Western Area Power Administration, Rocky Mountain Region, P.O. Box 3700, Loveland, CO 80539; fax (970) 461-7213; or e-mail eptp@wapa.gov. For persons wishing to leave voice messages, the toll-free number is (888) 826-4710.

FOR FURTHER INFORMATION CONTACT: For further information or to request copies of the EIS, contact Mr. Hartman at the addresses provided or telephone the Transmission Project toll-free number at (888) 826-4710. For general information on DOE's NEPA review procedures or the status of a NEPA review, contact Ms. Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance (GC-20), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0119; telephone (202) 586-4600 or (800) 472-2756; or fax (202) 586-7031.

SUPPLEMENTARY INFORMATION:

Background and Need for Agency Action

Western, a power marketing administration within DOE, markets Federal hydroelectric power to preferred customers, as specified by law. They include municipalities, cooperatives, public utility and irrigation districts, Federal and state agencies, and Native American tribes in 15 western states, including Colorado and Kansas. Western's proposal is to participate with Tri-State in the construction of the Transmission Project in exchange for approximately 275 MW of capacity rights on the proposed transmission lines. Tri-State is a wholesale electric power supplier, owned by the 44 electric cooperatives it serves. Tri-State and the member utilities serve customers throughout Colorado, Nebraska, New Mexico, and Wyoming.

Western needs to provide more economical, reliable, diverse, and flexible power delivery to its customers by expanding the capability and geographic reach of Western's existing

transmission system. The Transmission Project would provide Western's customers with more economical service by allowing customers to purchase transmission service directly from Western rather than through other companies' transmission lines. Also, during low water times, the Transmission Project would provide Western increased access to other options for satisfying Western's Federal hydropower contractual allocations. In addition, the Transmission Project would provide a direct interconnection at the Midway Substation which would facilitate power transfer between two of Western's Federal projects, the Colorado River Storage Project and the Loveland Area Projects. Enhancing and expanding transmission pathways also would contribute to ensuring reliability of the Federal transmission system.

Proposed Action and Alternatives

Western is preparing the EIS on its proposal to participate with Tri-State in the construction of the Transmission Project. Western's proposed activities include construction planning and management for approximately 1,000 miles of high-voltage transmission lines, and acquiring rights-of-way for transmission lines, access roads, and communication facilities. In addition to the environmental effects of the transmission lines, access roads, and construction staging areas, the EIS will address environmental effects of four new substations, expansions of approximately eight existing substations, and installing a fiber optic communications system for control of the transmission lines.

Western issued a NOI to prepare an EIS for the Transmission Project on August 2, 2006 (71 FR 43733), which included dates, times, and locations of public scoping meetings, and opportunities available for the public to comment. Since the NOI was published, 10 public scoping meetings were conducted between August 28 and September 14, 2006, throughout eastern Colorado and western Kansas. Western issued a second notice of public meetings and additional opportunity for public review and comment on January 19, 2007 (72 FR 2507), and 10 public meetings were conducted between February 12 and 23, 2007. This notice announces an additional public meeting on June 20, 2007, to provide the public an opportunity to review and comment on additional and revised transmission line routes between Big Sandy Substation and Midway Substation, and on the scope of the EIS.

Alternative Transmission Line Routes

During the August and September 2006 scoping meetings, Western presented preliminary locations of transmission line corridors and new substations. As a result of comments received, Western gathered additional data, made several route refinements, added additional routes, and considered alternatives, all of which were made available to the public at the February 2007 meetings. At the February meetings, Western accepted comments on the routes. As a result of the comments received on routes between Big Sandy Substation and Midway Substation, Western determined that additional route refinement and public involvement would be beneficial to refining routes in the area. The route refinements will be presented at the public meeting in June. At the June meeting, Western seeks comments on the alternative routes and other issues related to scope of the EIS. Western will consider the comments in its analysis.

Western will address other alternatives in the EIS, including the no action alternative. Under the no action alternative, Western would not participate with Tri-State in the construction of the Transmission Project. The EIS will evaluate the environmental effects of the alternatives and compare them to the existing baseline condition, in which no Transmission Project facilities are present. Alternative transmission line routes and substation locations will be refined as part of the EIS public process and addressed in the EIS. Western will consider additional reasonable alternatives that are technically and economically viable and that would meet Western's purpose and need.

Impacts Associated With Tri-State's Generation Projects

Tri-State proposes to develop coal-fired generation in Holcomb, Kansas, and is planning for additional generation projects. Western is not a participant in, is not involved in, and does not have control over Tri-State's generation projects. The EIS will evaluate the environmental impacts of Tri-State's generation as well as other past, present, and reasonably foreseeable projects.

Summary of Comments Received During First and Second Round Scoping

Western prepared a summary of the comments received during the first round of scoping meetings. That summary is available at <http://www.wapa.gov/transmission/eptp.htm>.

Prior to the public meeting in June 2007, the comments from the February 2007 meetings will be available at the same internet address. Copies also are available on request.

Participation in the NEPA Process

Persons interested in receiving future notices, Transmission Project information, copies of the EIS, and other information on the NEPA review process should contact Mr. Hartman as described under **ADDRESSES**. The EIS (choice of summary or full document) will be available in printed and electronic (compact disc) formats.

Western anticipates the draft EIS will be available summer 2007, with a final EIS available spring 2008. A Record of Decision is expected to be issued spring 2008. The public will be provided an opportunity to comment on the draft EIS. The location of public hearings on the draft EIS will be provided in the **Federal Register** and to local media at a later date.

Dated: May 23, 2007.

Timothy J. Meeks,
Administrator.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2007-0320; FRL-8130-4]

Agency Information Collection Activities; Proposed Collection; Comment Request; Application and Summary Report for an Emergency Exemption for Pesticides; EPA ICR No. 0596.09, OMB Control No. 2070-0032

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR, entitled: "Application and Summary Report for an Emergency Exemption for Pesticides" and identified by EPA ICR No. 0596.09 and OMB Control No. 2070-0032, is scheduled to expire on February 28, 2008. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection.

DATES: Comments must be received on or before August 3, 2007.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2007-0320, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail:* Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- *Delivery:* OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. Deliveries are only accepted during the Docket's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2007-0320. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or e-mail. The Federal [regulations.gov](http://www.regulations.gov) website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available in [regulations.gov](http://www.regulations.gov). To access the electronic docket, go to [http://](http://www.regulations.gov)

www.regulations.gov, select "Advanced Search," then "Docket Search." Insert the docket ID number where indicated and select the "Submit" button. Follow the instructions on the [regulations.gov](http://www.regulations.gov) web site to view the docket index or access available documents. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT:

Cameo Gianne Smoot, Field and External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-5454; fax number: (703) 305-5884; e-mail address: smoot.cameo@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that
