AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Based on documentation submitted by the U.S. Department of Energy (DOE) for the Waste Isolation Pilot Plant (WIPP), the U.S. Environmental Protection Agency (EPA or "we") determined that between 2004

and 2006, DOE operated the WIPP facility in compliance with applicable Federal statutes, regulations, and permit requirements designated in Section 9(a)(1) of the WIPP Land Withdrawal Act, as amended. The Secretary of Energy was notified of the determination via a letter from EPA Administrator Stephen L. Johnson dated May 31, 2007.

II. Background

EPA made this determination under the authority of Section 9 of the WIPP Land Withdrawal Act (WIPP LWA). (Pub. L. 102-579 and 104-201.) Section 9(a)(1) of the WIPP LWA requires that, as of the date of the enactment of the WIPP LWA, DOE shall comply with respect to WIPP with (1) regulations for the management and storage of radioactive waste (40 CFR part 191, subpart A); (2) the Clean Air Act; (3) the Solid Waste Disposal Act; (4) the Safe Drinking Water Act; (5) the Toxic Substances Control Act; (6) the Comprehensive Environmental

Response, Compensation, and Liability Act; and (7) all other applicable Federal laws pertaining to public health and safety or the environment. Section 9(a)(2) of the WIPP LWA requires DOE biennially to submit to EPA documentation of continued compliance with the laws, regulations, and permit requirements set forth in Section 9(a)(1). (DOE must also submit similar documentation of compliance with the Solid Waste Disposal Act to the State of New Mexico.) Section 9(a)(3) requires the Administrator of EPA to determine on a biennial basis, following the submittal of documentation of compliance by the Secretary of DOE, whether the WIPP is in compliance with the pertinent laws, regulations, and permit requirements, as set forth at Section 9(a)(1).

We determined that for the period 2004 to 2006, the DOE-submitted documentation showed continued compliance with 40 CFR part 191, subpart A, the Clean Air Act, the Safe Drinking Water Act, the Toxic Substances Control Act, and the Comprehensive Environmental Response, Compensation, and Liability Act. With respect to other applicable Federal laws pertaining to public health and safety or the environment, as required by Section 9(a)(1)(G), DOE's documentation also indicates that DOE was in compliance with the Clean Water Act, the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and certain statutes under the jurisdiction of the Department of the Interior.

This determination is not in any way related to, or a part of, our certification decision regarding whether the WIPP complies with EPA's disposal regulations for transuranic radioactive waste at 40 CFR part 191.

Dated: May 31, 2007.

Stephen L. Johnson,
Administrator.

Reproposal of the Reissuance of Two General NPDES Permits (GPs), One for Aquaculture Facilities in Idaho Subject to Wasteload Allocations Under Selected Total Maximum Daily Loads (Permit Number IDG-13-0000) and One for Fish Processors Associated With Aquaculture Facilities in Idaho (Permit Number IDG-13-2000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of additional modification of two draft general NPDES permits.

SUMMARY: On September 27, 2004, a general permit regulating the activities of aquaculture facilities in Idaho and associated on-site fish processors expired. On June 19, 2006, the Director, Office of Water and Watersheds, EPA Region 10, proposed to reissue three general permits to cover facilities covered under the previous permit. These general permits also will cover facilities currently operating under individual permits, thereby terminating the authorization to discharge under the individual permits. This additional public notice is to invite comments on revised limits for some of the covered facilities and revised requirements for pollutant trading among the facilities, as well as revised determinations on the effect on listed species under the Endangered Species Act.

DATES: Comments must be received or postmarked by July 9, 2007.

Public Comment: Interested persons may submit written comments on the changes to the draft permits to the attention of Sharon Wilson at the address below. All comments should include the name, address, and telephone number of the commenter and a concise statement of comment and the relevant facts upon which it is based. Comments of either support or concern which are directed at specific, cited permit requirements are appreciated.

After the expiration date of the Public Notice on July 9, 2007; the Director, Office of Water and Watersheds, EPA Region 10, will make a final determination with respect to issuance of the general permits. Response to comments from both comment periods will be published with the final permits. The proposed requirements contained in the draft general permits will become final 30 days after publication of the final permits in the **Federal Register**.
