

values and schedules, including the documentation of rules and procedures governing determination of the values. The required reconciliation schedules must also include a detailed explanation of any adjustments necessitated by the imperfect overlap between the eligible positions that the taxpayer marks to market under section 475 and the eligible positions for which the applicable financial statement uses an eligible method. In the time and manner provided by the Commissioner, a corporate taxpayer subject to this paragraph (k) must reconcile the net income amount reported on its applicable financial statement to the amount reported on the applicable forms and schedules on its Federal income tax return (such as the Schedule M-1, "Net Income(Loss) Reconciliation for Corporations With Total Assets of \$10 Million or More"; Schedule M-3, "Net Income(Loss) Reconciliation for Corporations With Total Assets of \$10 Million or More"; and Form 1120F, "U.S. Income Tax Return of a Foreign Corporation"). Eligible taxpayers that are not otherwise required to file a Schedule M-1 or Schedule M-3 must reconcile net income using substitute schedules similar to Schedule M-1 and Schedule M-3, and these substitute schedules must be attached to the return.

(B) *Values on books and records with supporting schedules.* The books and records must state the value used for each eligible position separately from the value used for any other eligible position. However, an eligible taxpayer may make adjustments to values on a pooled basis, if the taxpayer demonstrates that it can compute gain or loss attributable to the sale or other disposition of an individual eligible position.

(C) *Consolidation schedules.* An eligible taxpayer must provide a schedule showing the consolidation and de-consolidation that is used in preparing the applicable financial statement, along with exhibits and subordinate schedules. This schedule must provide information that addresses the differences for consolidation and de-consolidation between the applicable financial statement and the Federal income tax return.

(ii) *Instructions provided by the Commissioner.* The Commissioner may provide an alternative time or manner in which an eligible taxpayer subject to this paragraph (k) must establish that the same values used for eligible positions on the applicable financial statement are also the values used for purposes of section 475 on the Federal income tax return.

(3) *Time for producing records.* All documents described in this paragraph (k) must be produced within 30 days of a request by the Commissioner, unless the Commissioner grants a written extension. Generally, the Commissioner will exercise his discretion to excuse a minor or inadvertent failure to provide requested documents if the taxpayer shows reasonable cause for the failure, has made a good faith effort to comply with the requirement to produce records, and promptly remedies the failure. For failures to maintain, or timely produce, records, see paragraph (f)(3)(ii) of this section (allowing the Commissioner to revoke the election), and see paragraph (m) of this section (allowing the Commissioner, but not the taxpayer, to use for eligible positions that otherwise might be subject to the safe harbor fair market values that clearly reflect income but that are different from the values used on the applicable financial statement).

(4) *Retention period for records.* All materials required by this paragraph (k) and section 6001 must be retained as long as their contents may become material in the administration of any internal revenue law.

(5) *Agreements with the Commissioner.* The Commissioner and an eligible taxpayer may enter into a written agreement that establishes, for purposes of this paragraph (k), which records must be maintained, how they must be maintained, and for how long they must be maintained.

(l) [Reserved].

(m) *Use of different values.* If, with respect to the records that relate to certain eligible positions for a taxable year, the taxpayer fails to satisfy paragraph (k) of this section (concerning record retention and record production), then, for those eligible positions for that year, the Commissioner may use values that the Commissioner determines to be fair market values that are appropriate to clearly reflect income, even if the values so determined are different from the values reported for those positions on the applicable financial statement. See also paragraph (f)(3)(ii) of this section (concerning revocation of the election by the Commissioner when a taxpayer does not produce required records and fails to demonstrate reasonable cause for the failure).

RIN 1625-AA00

Safety Zones; Annual Events Requiring Safety Zones in the Captain of the Port Lake Michigan Zone

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard has established permanent safety zones for

annual events in the Captain of the Port Lake Michigan zone. This rule will restrict vessels from portions of water and shore areas during events that pose a hazard to public safety. The safety zones established by this final rule are necessary to protect spectators, participants, and vessels from the hazards associated with fireworks displays, air shows, and other events.

DATES: This rule is effective June 27, 2007.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket [CGD09-07-005] and are available for inspection or copying at Coast Guard Sector Lake Michigan (spw), 2420 South Lincoln Memorial Drive, Milwaukee, WI 53207 between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: CWO Brad Hinken, Prevention Department, Coast Guard Sector Lake Michigan, Milwaukee, WI at (414) 747-7154.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On May 4, 2007, we published a notice of proposed rulemaking (NPRM) entitled "Safety Zones; Annual events requiring safety zones in the Captain of the Port Lake Michigan zone" in the **Federal Register** (72 FR 25219). We received no letters commenting on the proposed rule. No public meeting was requested, and none was held.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Any delay encountered in the regulation's effective date would be contrary to the public interest since the safety zone is needed to protect the maritime public from any potential hazards associated with fireworks displays, air shows, or other events.

Background and Purpose

In 2005 the Coast Guard consolidated the Captain of the Port Milwaukee Zone and the Captain of the Port Chicago Zone and realigned the boundaries of the Captain of the Port Sault Ste. Marie Zone to create the Captain of the Port Lake Michigan Zone. This rule consolidates the regulations found in 33 CFR part 165.909, Safety Zones; Annual fireworks events in the Captain of the Port Milwaukee Zone and 33 CFR 165.918, Safety Zones; Annual fireworks events in the Captain of the Port Chicago Zone into one rule that includes all safety zones for annual

events in the Captain of the Port Lake Michigan Zone. This rule also adds several annual events not previously listed in 33 CFR part 165 and removes several events that no longer occur annually or do not require a safety zone. These safety zones are necessary to protect vessels and people from the hazards associated with fireworks displays, air shows, or other events. Such hazards include obstructions to the waterway that may cause marine casualties and the explosive danger of fireworks and debris falling into the water that may cause death or serious bodily harm.

Discussion of Comments and Changes

No comments were received concerning this final rule. No changes have been made.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We have determined the economic impact of this rule to be so minimal that a full Regulatory Evaluation is unnecessary. The Coast Guard's use of these safety zones will be periodic in nature, of short duration, and designed to minimize the impact on navigable waters. These safety zones will only be enforced immediately before and during the time the events are occurring. Furthermore, these safety zones have been designed to allow vessels to transit unrestricted to portions of the waterways not affected by the safety zones. The Coast Guard expects insignificant adverse impact to mariners from the activation of these safety zones.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offered to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking. Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

The Coast Guard recognizes the treaty rights of Native American tribes. Moreover, the Coast Guard is committed to working with Tribal Governments to implement local policies and to mitigate tribal concerns. We have determined that this safety zone and fishing rights protection need not be incompatible. We have also determined that this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. Nevertheless, Indian Tribes that have questions concerning the provisions of this rule or options for compliance are encouraged to contact the point of contact listed under **FOR FURTHER INFORMATION CONTACT**.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency

provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID and Department of Homeland Security Management Directive 5100.1, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation.

A final "Environmental Analysis Check List" and a final "Categorical Exclusion Determination" are available in the docket where indicated under **ADDRESSES**.

SUPPLEMENTARY INFORMATION:

Background

For many years it has been the policy of the National Park Service (NPS) to

encourage its concessioners to sell native handicrafts to park area visitors. The Congress, through Section 416 of the National Parks Omnibus Management Act of 1998 (1998 Act), embodied this policy into law, stating that:

Promoting the sale of authentic United States Indian, Alaska Native, Native Samoan, and Native Hawaiian handicrafts relating to the cultural, historical, and geographic characteristics of units of the National Park System is encouraged, and the Secretary shall ensure that there is a continuing effort to enhance the handicraft trade where it exists and establish the trade in appropriate areas where the trade currently does not exist.

In furtherance of this objective, Section 416(b) of the 1998 Act exempts the revenue derived by NPS concessioners from the sale of United States Indian, Alaska Native, Native Samoan and Native Hawaiian handicrafts from concession contract franchise fees. This final regulation collectively refers to these handicrafts as "authentic native handicrafts."

Also, Section 417 of the 1998 Act requires the Secretary of the Interior (Secretary) to promulgate a regulation that further defines United States Indian, Alaska Native and Native Hawaiian handicrafts. Section 409 of the 1998 Act (16 U.S.C. 5958) requires the National Park Service Concessions Management Advisory Board (Advisory Board) to make recommendations to the Secretary regarding the nature and scope of products that qualify as authentic native handicrafts within the meaning of the 1998 Act. This regulation has been developed in consideration of the recommendations of the Advisory Board.

This regulation will give guidance to the NPS and NPS concessioners to determine what products meet the definition of authentic native handicrafts for purposes of franchise fee exemptions and other elements of the NPS concessions management program.

In developing the regulation, NPS, upon the recommendation of the Advisory Board, incorporated to the extent appropriate the relevant definitions established by the Indian Arts and Crafts Board of the Department of the Interior (IACB) in 25 CFR part 309 in recognition of the native handicraft expertise of the IACB.

Please note that Section 417 of the 1998 Act requires the Secretary to further define "United States Indian, Alaska Native, and Native Hawaiian handicraft." However, section 416 of the 1998 Act additionally refers to Native Samoan handicraft. Accordingly, although the term "Native Samoan handicraft" is not defined in the
