#### Selection Criteria

The Coast Guard reserves the right to select for CRADA participants all, some, or none of the proposals in response to this notice. The Coast Guard will provide no funding for reimbursement of proposal development costs. Proposals (or any other material) submitted in response to this notice will not be returned. Proposals submitted are expected to be unclassified and have no more than four single-sided pages (excluding cover page and resumes). The Coast Guard will select proposals at its sole discretion on the basis of:

- (1) How well they communicate an understanding of, and ability to meet, the proposed CRADA's goal; and
- (2) How well they address the following criteria:
  - (a) Technical capability to support the non-Federal party contributions described; and
  - (b) Resources available for supporting the non-Federal party contributions described.

This is a technology transfer/development effort. Presently, the Coast Guard has no plan to procure the Next Generation, Command Center Decision Support technology being investigated under this CRADA. Since the goal of this CRADA is "to identify and investigate the potential of conceptual Next Generation, Command Center Decision Support Tools," and not to set future CG acquisition requirements for same, non-Federal CRADA partners will not be excluded from any future CG procurements based solely on their participation within this CRADA.

Special consideration will be given to small business firms/consortia, and preference will be given to business units located in the U.S.
