Take notice that on May 21, 2007, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed in Docket No. CP07-385-000, an application pursuant to sections 157.205, 157.208, and 157.212 of the Commission's Regulations under the Natural Gas Act (NGA) as amended, to construct and operate a new receipt point to receive revaporized liquefied natural gas in Cameron Parish, Louisiana, under Transco's blanket certificate issued in Docket No. CP82-426-000, all as more fully set forth in the application which is on file with the

Commission and open to the public for inspection.

Transco proposes to construct and operate a new receipt point on Transco's 30-inch diameter Southwest Louisiana (SWLA) lateral to receive revaporized natural gas from the Sabine Pass LNG, L.P. import terminal by way of the Cheniere Sabine Pass Pipeline Company's (Cheniere) pipeline. The tap on Transco's SWLA lateral would be located within the yard of Transco's existing Compressor Station No. 44 in Cameron Meadows, Cameron Parish, Louisiana. Transco states that the interconnection with Cheniere would be located adjacent to Compressor Station No. 44. Transco also states that the new receipt point would provide Transco with the ability to receive up to 1 Bcf of revaporized LNG per day from the Cheniere Sabine Pass pipeline into Transco's SWLA lateral. Transco estimates that it would cost \$1,600,000 to construct the proposed receipt point facilities. Transco further states that Cheniere would reimburse Transco for all costs associated with construction of the proposed facilities.
