SUPPLEMENTARY INFORMATION:

I. Abstract

Based on the management regime specified each year, designated regulatory areas in the commercial ocean salmon fishery off the coasts of Washington, Oregon, and California may be managed by numerical quotas. To accurately assess catches relative to quota attainment during the fishing season, catch data by regulatory area must be collected in a timely manner. Requirements to land salmon within specific time frames and in specific areas may be implemented in the preseason regulations to aid in timely and accurate catch accounting for a regulatory area. State landing systems normally gather the data at the time of landing. If unsafe weather conditions or mechanical problems prevent compliance with landing requirements, fishermen need an alternative to allow for a safe response. Fishermen would be exempt from landing requirements if the appropriate notifications are made to provide the name of the vessel, the port where delivery will be made, the approximate amount of salmon (by species) on board, and the estimated time of arrival.

II. Method of Collection

Notifications are made by at-sea radio or cellular phone transmissions.

COMMODITY FUTURES TRADING COMMISSION

Order Exempting the Trading and Clearing of Certain Credit Default Products Pursuant to the Exemptive Authority in Section 4(c) of the Commodity Exchange Act ("CEA"); Republication

Editorial Note: FR Doc. 07-2878 originally published at pages 32079-32081 in the issue of Monday, June 11, 2007. Due to numerous errors, the document is being reprinted in its entirety.

AGENCY: Commodity Futures Trading Commission.

ACTION: Final order.

SUMMARY: On May 14, 2007, the Commodity Futures Trading Commission ("CFTC" or the "Commission") published for public comment in the **Federal Register**¹ a proposal to exempt from the CEA² the trading and clearing of certain products called credit default options ("CDOs") and credit default basket options ("CDBOs") that are proposed to be traded on the Chicago Board Options Exchange ("CBOE"), a national securities exchange registered under Section 6 of the Securities Exchange Act of 1934 ("1934 Act"),³ and cleared through the Options Clearing

Corporation ("OCC"), a registered securities clearing agency registered under Section 17A of the 1934 Act,⁴ and Derivatives Clearing Organization registered under Section 5b of the CEA.⁵ The proposed order was preceded by a request from OCC to approve rules that would permit it to clear these CDOs and CDBOs in its capacity as a registered securities clearing agency. OCC's request presented novel and complex issues of jurisdiction and the Commission determined that an order exempting the trading and clearing of such instruments from pertinent requirements of the CEA may be appropriate. The Commission has reviewed the comments made in response to its proposal and the entire record in this matter and has determined to issue an order exempting the trading and clearing of these contracts from the CEA.

Authority for this exemption is found in Section 4(c) of the CEA.⁶

DATES: *Effective Date:* June 5, 2007.
