

and equipment of FAMs. In furtherance of this authority, TSA policy requires that applicants for the Office of Law Enforcement/Federal Air Marshal positions meet certain medical standards, including Federal Aviation Administration second-class airman standards as outlined in 14 CFR part 67.

The TSA modifications to these standards include a psychological evaluation determining that individuals do not have an established medical history or clinical diagnosis of psychosis, neurosis, or any other personality or mental disorder that clearly demonstrates a potential hazard to the performance of FAM duties or the safety of self or others. As part of the psychological evaluation, applicants are required to complete a certification form regarding their mental health history and provide an explanation for anything they cannot certify. Applicants will be asked whether they can certify various statements including that they have never been removed from work for medical or psychological reasons. Applicants submit this certification form directly to the FAMs Medical Program via fax, electronically by scanning the document, by mail, or in person. Any explanations received will generally require further review and follow-up by a contract psychologist or psychiatrist. This certification is carefully geared to capitalize on other elements of the assessment process, such as personal interviews, physical task assessment, background investigation, as well as the other components of the medical examination and assessment. The estimated annual reporting burden is 10,000 hours based on an estimated 10,000 respondents.

Abstract: The Division of International Conservation awards grants funded under the:

(1) African Elephant Conservation Act (16 U.S.C. 4201-4245).

(2) Asian Elephant Conservation Act of 1997 (16 U.S.C. 4261).

(3) Great Ape Conservation Act of 2000 (Pub. L. 106-411).

(4) Rhinoceros and Tiger Conservation Act of 1994 (16 U.S.C. 5306).

(5) Marine Turtle Conservation Act (Pub. L. 108-266).

(6) Wildlife Without Borders Programs - Mexico, Latin America and the Caribbean, and Russia.

The information that we collect for grants awarded under the Marine Turtle Conservation Act is approved under OMB Control No. 1018-0128, which expires March 31, 2009. We are proposing to include that information collection with the others in this approval request, all under OMB Control Number 1018-0123.

Applicants submit proposals for funding in response to Notices of Funding Availability that we publish on Grants.gov. We collect the following information under each Notice of Funding Availability:

(1) Cover page with basic project details (FWS Form 3-2338). This is a new form that we propose to replace the six forms currently approved under OMB Control No. 1018-0123.

(2) Project summary and narrative.

(3) Letter of appropriate government endorsement.

(4) Brief curricula vitae for key project personnel.

(5) Complete Standard Forms 424, 424a and 424b (nondomestic applicants do not submit the standard forms).

Proposals may also include, as appropriate, a copy of the organization's Negotiated Indirect Cost Rate Agreement (NIRCA) and any additional documentation supporting the proposed project.

The project summary and narrative is the basis for this information collection request for approval. A panel of technical experts reviews each proposal to assess how well the project addresses the priorities identified by each program's authorizing legislation. As all of the on-the-ground projects funded by these programs are conducted outside the United States, the letter of appropriate government endorsement ensures that the proposed activities will not meet with local resistance or work in opposition to locally identified priorities and needs. Brief curricula vitae for key project personnel allow the review panel to assess the qualifications of project staff to effectively carry out the project goals and objectives. As all Federal entities must honor the indirect cost rates an organization has negotiated with its cognizant agency, we require all organizations with a NICRA to submit the agreement paperwork with their proposals to verify how their rate is applied in their proposed budget. Applicants may provide any additional documentation that they believe best supports their proposal.

Comments: On March 16, 2007, we published in the **Federal Register** (72 FR 12630) a notice of our intent to request that OMB renew authority for this information collection. We solicited comments for 60 days, ending on May 15, 2007. We received one comment. The commenter did not address the information collection requirements, but did express a general concern as to whether appropriated funds were reaching the intended species. We have not made any changes to our information collection as a result of the comment.

We again invite comments concerning this information collection on:

(1) whether or not the collection of information is necessary, including whether or not the information will have practical utility;

(2) the accuracy of our estimate of the burden for this collection of information;

(3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address,
