Collection of Information

Title: Revisions to National Flood Insurance Program Maps: Application Forms and Instructions for (C)LOMAs and (C)LOMR-Fs.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660-0015.

Form Numbers: FEMA Forms 81-87, 81-87A, 81-87B.

Abstract: The certification forms (referred to as MT-1 series forms) are designed to assist requesters in gathering information that the FEMA needs to determine whether a certain property is likely to be flooded during a flood event that has a one-percent annual chance of being equaled or exceeded in any given year (base flood). FEMA Form 81-87, Property Information, describes the location of the property, what is being requested, and what data are required to support the request. FEMA Form 81-87A, Elevation Information, indicates what the Base (one-percent annual chance) Flood Elevation (BFE) for the property is, how the BFE was determined, the

lowest ground elevation on the property, and/or the elevation of the lowest adjacent grade to any structures on the property. This information is required in order for FEMA to determine if the property that the requester would like removed from the Special Flood Hazard Area (SFHA) is at or above the BFE. FEMA Form 81-87B, Community Acknowledgment, requires that a community official certify that the request complies with minimum floodplain management criteria specified in 44 CFR 60.3, as per NFIP regulations 44 CFR 65.5(a)(4).

Affected Public: Individuals or households, business or other for-profit organizations, and state and local or tribal government.
