

Division of Tariffs and Market Development—West, granted the requests for blanket approval under part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests.

Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by RPL should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004).

Notice is hereby given that the deadline for filing protests is July 9, 2007.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, RPL is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of RPL, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of RPL's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number filed to access the document. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

[Docket No. EL07-72-000]

#### Midwest ISO Transmission Owners Complainant, v. Midwest independent Transmission System Operator, Inc. Respondent; Notice of Complaint

June 19, 2007.

Take notice that on June 14, 2007, the Midwest ISO Transmission Owners, pursuant to section 206 of the Federal Power Act, and section 206 of the Commission's Rules of Practice and Procedures, 18 CFR 385.206 (2006), filed a complaint against the Midwest Independent Transmission System Operator, Inc. (Midwest ISO) alleging that the Midwest ISO violated the terms of its Open Access transmission and Energy Markets Tariff in allocating construction work in progress and costs for plants not yet in service associated with new reliability facilities under Attachments FF and GG and Schedule 26 of the tariff.

The Midwest ISO Transmission Owners certify that a copy of the complaint has been served on the Midwest ISO.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a

document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5 p.m. Eastern Time on July 5, 2007.

### Federal Energy Regulatory Commission

[Docket No. CP07-51-000]

#### Gulfstream Natural Gas System, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Gulfstream Phase IV Project

June 19, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Gulfstream Natural Gas System, L.L.C. (Gulfstream) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of approximately 17.73 miles of 20-inch diameter offshore pipeline and 0.01 miles of 20-inch diameter onshore pipeline. Compression would be added at two locations within the existing Gulfstream System. One 15,000 horsepower (HP) turbine-driven compressor unit would be installed at Gulfstream's existing Compressor Station 410 in Mobile County, Alabama. A new 30,000 HP turbine-driven compressor station would be constructed at the existing pressure-reduction Station 420 site in Manatee County, Florida at MP 427.8 (Line 200).

Progress Energy Florida, Inc. (Progress Energy) is scheduled to re-power their Bartow Plant in Pinellas County, Florida. The 472-megawatt (MW) oil-fired plant is scheduled to be re-powered with three combined cycle gas turbines that will generate 1,100 MW of power. Natural gas consumption is
