

Commission's program for the regulation of such materials and is adequate to protect public health and safety; and,

WHEREAS, The Commonwealth and the Commission recognize the desirability and importance of cooperation between the Commission and the Commonwealth in the formulation of standards for protection against hazards of radiation and in assuring that Commonwealth and Commission programs for protection against hazards of radiation will be coordinated and compatible; and,

WHEREAS, The Commission and the Commonwealth recognize the desirability of the reciprocal recognition of licenses, and of the granting of limited exemptions from licensing of those materials subject to this Agreement; and,

WHEREAS, This Agreement is entered into pursuant to the provisions of the Act; NOW, THEREFORE, It is hereby agreed between the Commission and the Governor of the Commonwealth acting on behalf of the Commonwealth as follows:

ARTICLE I

Subject to the exceptions provided in Articles II, IV, and V, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the Commonwealth under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

1. Byproduct materials as defined in Section 11e.(1) of the Act;
2. Byproduct materials as defined in Section 11e.(3) of the Act;
3. Byproduct materials as defined in Section 11e.(4) of the Act;
4. Source materials;
5. Special nuclear materials in quantities not sufficient to form a critical mass.
6. The regulation of the land disposal of all byproduct, source, and special nuclear waste materials covered by this Agreement;

ARTICLE II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to:

1. The regulation of the construction and operation of any production or utilization facility or any uranium enrichment facility;
2. The regulation of the export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;
3. The regulation of the disposal into the ocean or sea of byproduct, source, or special nuclear materials waste as defined in the regulations or orders of the Commission;
4. The regulation of the disposal of such other byproduct, source, or special nuclear materials waste as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be disposed without a license from the Commission;
5. The evaluation of radiation safety information on sealed sources or devices containing byproduct, source, or special nuclear materials and the registration of the sealed sources or devices for distribution, as provided for in regulations or orders of the Commission.

ARTICLE III

With the exception of those activities identified in Article II.A.1 through 4, this Agreement may be amended, upon application by the Commonwealth and approval by the Commission, to include one or more of the additional activities specified in Article II, whereby the Commonwealth may then exert regulatory authority and responsibility with respect to those activities.

ARTICLE IV

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ARTICLE V

This Agreement shall not affect the authority of the Commission under SubSection 161b or 161i of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data, or to guard against the loss or diversion of special nuclear material.

ARTICLE VI

The Commission will cooperate with the Commonwealth and other Agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that Commission and Commonwealth programs for protection against hazards of radiation will be coordinated and compatible. The Commonwealth agrees to cooperate with the Commission and other Agreement States in the formulation of standards and regulatory programs of the Commonwealth and the Commission for protection against hazards of radiation and to assure that the Commonwealth's program will continue to be compatible with the program of the Commission for the regulation of materials covered by this Agreement.

The Commonwealth and the Commission agree to keep each other informed of proposed changes in their respective rules and regulations, and to provide each other the opportunity for early and substantive contribution to the proposed changes.

The Commonwealth and the Commission agree to keep each other informed of events, accidents, and licensee performance that may have generic implication or otherwise be of regulatory interest.

ARTICLE VII

The Commission and the Commonwealth agree that it is desirable to provide reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any other Agreement State. Accordingly, the Commission and the Commonwealth agree to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ARTICLE VIII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the Commonwealth, or upon request of the Governor of the Commonwealth, may terminate or suspend all or part of this agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that (1) Such termination or suspension is required to protect public health and safety, or (2) the Commonwealth has not complied with one or more of the requirements of Section 274 of the Act. The Commission may also, pursuant to Section 274j of the Act, temporarily suspend all or part of this agreement if, in the judgment of the Commission, an emergency situation exists requiring immediate action to protect public health and safety and the Commonwealth has failed to take necessary steps. The Commission shall periodically review actions taken by the Commonwealth under this Agreement to ensure compliance with Section 274 of the Act which requires a Commonwealth program to be adequate to protect public health and safety with respect to the materials covered by this Agreement and to be compatible with the Commission's program.

ARTICLE IX

This Agreement shall become effective on [date], and shall remain in effect unless and until such time as it is terminated pursuant to Article VIII.

Done at [City, State] this [date] day of [month], [year].

For the United States Nuclear Regulatory Commission.

Dale E. Klein, Chairman,
For the Commonwealth of Pennsylvania.

Edward G. Rendell, Governor.

BILLING CODE 3210-01-M

SECURITIES AND EXCHANGE COMMISSION
Submission for OMB Review; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 6a-3, SEC File No. 270-0015, OMB Control No. 3235-0021.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Section 6 of the Securities Exchange Act of 1934 ("Act") (15 U.S.C. 78a *et seq.*) sets out a framework for the registration and regulation of national securities exchanges. Under Commission Rule 6a-3 (17 CFR 240.6a-3), one of the rules that implements Section 6, a national securities exchange (or an exchange exempted from registration based on limited trading volume) must provide certain supplemental information to the Commission, including any material (including notices, circulars, bulletins, lists, and periodicals) issued or made generally available to members of, or participants or subscribers to, the exchange. Rule 6a-3 also requires the exchanges to file monthly reports that set forth the volume and aggregate dollar amount of securities sold on the exchange each month. The information required to be filed with the Commission pursuant to Rule 6a-3 is designed to enable the Commission to

carry out its statutorily mandated oversight functions and to ensure that registered and exempt exchanges continue to be in compliance with the Act.

The respondents to the collection of information are national securities exchanges and exchanges that are exempt from registration based on limited trading volume.

The Commission estimates that each respondent makes approximately 25 such filings on an annual basis at an average cost of approximately \$21 per response. Currently, 12 respondents (ten national securities exchanges and two exempt exchanges) are subject to the collection of information requirements of Rule 6a-3. The Commission estimates that the total burden for all respondents is 150 hours (25 filings/respondent per year × 0.5 hours/filing × 12 respondents) and \$6300 (\$21/response × 25 responses/respondent per year × 12 respondents) per year.

Compliance with Rule 6a-3 is mandatory for registered and exempt exchanges. Information received in response to Rule 6a-3 shall not be kept confidential; the information collected is public information. As set forth in Rule 17a-1 under the Act,¹ a national securities exchange is required to retain records of the collection of information for at least five years.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Comments should be directed to (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503 or by sending an e-mail to: *David_Rostker@omb.eop.gov*; and (ii) R. Corey Booth, Director/Chief Information Officer, Securities and Exchange Commission, c/o Shirley Martinson, 6432 General Green Way, Alexandria, VA 22312 or send an e-mail to: *PRA_Mailbox@sec.gov*. Comments must be submitted within 30 days of this notice.

Dated: June 22, 2007.

Florence E. Harmon,

Deputy Secretary.

BILLING CODE 8010-01-P

¹ 17 CFR 240.17a-1.

SECURITIES AND EXCHANGE COMMISSION
Submission for OMB Review; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Form 1, Rules 6a-1 and 6a-2; SEC File No. 270-0017; OMB Control No. 3235-0017.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

The Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) (the "Act") sets forth a regulatory scheme for national securities exchanges. Rule 6a-1 (17 CFR 240.6a-1) under the Act generally requires an applicant for initial registration as a national securities exchange to file an application with the Commission on Form 1. An exchange that seeks an exemption from registration based on limited trading volume also must apply for such exemption on Form 1. Rule 6a-2 (17 CFR 240.6a-2) under the Act requires registered and exempt exchanges: (1) to amend the Form 1 if there are any material changes to the information provided in the initial Form 1; and (2) to submit periodic updates of certain information provided in the initial Form 1, whether such information has changed or not. The information required pursuant to Rules 6a-1 and 6a-2 is necessary to enable the Commission to maintain accurate files regarding the exchange and to exercise its statutory oversight functions. Without the information submitted pursuant to Rule 6a-1 on Form 1, the Commission would not be able to determine whether the respondent met the criteria for registration or exemption set forth in Sections 6 and 19 of the Act. Without the amendments and periodic updates of information submitted pursuant to Rule 6a-2, the Commission would have substantial difficulty determining whether a national securities exchange or exempt exchange was continuing to operate in compliance with the Act.

The respondents to the collection of information are entities that seek registration as a national securities exchange or that seek exemption from registration based on limited trading volume. After the initial filing of Form
