

occurred or terminated. Form HUD-903.1 was developed in order to promote consistency in the documents that, by statute, must be provided to persons against whom complaints are filed, and for the convenience of the general public. Section 103.25 of HUD's Fair Housing Act regulation describes the information that must be included in each complaint filed with HUD. For purposes of meeting the Act's one-year time limitation for filing complaints with HUD, complaints need not be initially submitted on the Form that HUD provides. Housing Discrimination Information Form HUD-903.1 (English language), HUD-903.1A (Spanish language), HUD-903-1B (Chinese language), HUD-903.1F (Vietnamese language), HUD-903.1KOR (Korean language), HUD-903.1C (Arabic language), HUD-903.1CAM (Cambodian language), and HUD-903.1RUS (Russian language) may be submitted to HUD by mail, in person, by facsimile, or via the Internet to HUD's Office of Fair Housing and Equal Opportunity (FHEO). FHEO staff uses the information provided on the Form to verify HUD's authority to investigate the aggrieved person's allegations under the Act.

Notice of Submission of Proposed Extension of Information Collection to OMB

Title of Proposal: Housing Discrimination Information Form.

Office: Fair Housing and Equal Opportunity, HUD.

OMB Control Number: 2529-0011.

Description of the need for the information and proposed use: HUD uses the Housing Discrimination Information Form HUD-903.1 (Form) to collect pertinent information from persons wishing to file housing discrimination complaints with HUD under the Fair Housing Act (Act). The Act makes it unlawful to discriminate in the sale, rental, occupancy, advertising, or insuring of residential dwellings; or to discriminate in residential real estate-related transactions, based on race, color, religion, sex, handicap (disability), familial status, or national origin.

Any person who claims to have been injured by a discriminatory housing practice, or any person who believes that he or she will be injured by a discriminatory housing practice that is about to occur, may file a complaint with HUD not later than one year after the alleged discriminatory housing practice occurs or terminates. The Form promotes consistency in the collection of information necessary to contact persons who file housing discrimination complaints with HUD. It also aids in the

collection of information necessary for initial assessments of HUD's authority to investigate alleged discriminatory housing practices under the Act.

This information may subsequently be provided to persons against whom complaints are filed ("respondents"), as required under section 810(a)(1)(B)(ii) of the Act.

Agency form numbers, if applicable: Form HUD-903.1 (English), Form HUD-903.1A (Spanish), Form HUD-903-1B (Chinese), Form HUD-903.1F (Vietnamese), Form HUD-903.1K (Korean), Form HUD-903.1AR (Arabic), Form HUD-903.1CAM (Cambodian), and Form HUD-903.1R (Russian).

Members of affected public: Individuals or households; businesses or other for-profit, not-for-profit institutions; State, Local, or Tribal Governments.

Estimation of the total number of hours needed to prepare the information collection, including the number of respondents, frequency of response, and hours of responses: During FY 2006, HUD staff received approximately 18,824 information submissions from persons wishing to file housing discrimination complaints with HUD. Telephone contacts accounted for 9,655 of this total. The remaining 9,169 complaint submissions were transmitted to HUD by mail, in-person, and via the Internet. HUD estimates that an aggrieved person requires approximately 45 minutes to complete the HUD 903.1 Form. The Form is completed once by each aggrieved person. Therefore, the total number of annual burden hours for this Form is 6,877 hours.

$9,169 \times 1$ (frequency) $\times .45$ minutes (.75 hrs.) = 6,877 (6,876.75) hours.

Annualized cost burden to complainants: HUD does not provide postage-paid mailers for this information collection. Accordingly, persons who choose to submit this Form to HUD by mail must pay the prevailing cost of First Class Postage. As of the date of this Notice, the annualized cost burden per person, based on a one-time submission of this Form to HUD via First Class Postage, is Forty-One Cents (\$0.41) per person. During FY 2006, FHEO staff received approximately 6,897 submissions of potential complaint information by mail. Based on this number, HUD estimates that the total annualized cost burden for aggrieved persons who submit this Form to HUD by mail is \$2,815.47.

Aggrieved persons also may submit the Form to HUD in person, by facsimile, or electronically via the Internet.

Status of the proposed information collection: Renewal of a currently approved collection of pertinent information from persons wishing to file Fair Housing Act complaints with HUD.

Authority: The Paperwork Reduction Act of 1995 [44 U.S.C. Chapter 35, as amended].

Dated: June 26, 2007.

Director, Office of Enforcement, FHEO.

Notice of Intent (NOI) To Prepare an Environmental Impact Statement (EIS) and Notice of Public Meeting on Four Federal Coal Lease Applications in the Decertified Powder River Federal Coal Production Region, WY

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent and notice of public meeting.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Land Management (BLM), Casper Field Office announces its intent to prepare one EIS on the potential impacts of leasing four tracts of Federal coal. The EIS will be called the Wright Area Coal EIS. Under the provisions of 43 Code of Federal Regulations (CFR) 3425.1, the BLM received the following applications to lease maintenance tracts (a maintenance tract is a parcel of land containing Federal coal reserves that can be leased to maintain production at an existing mine) in Campbell County, Wyoming:

- Ark Land Company applied for a maintenance coal lease for approximately 4,590.19 acres (approximately 588.2 million tons of coal) in a maintenance tract of Federal coal adjacent to the Black Thunder Mine. The tract, which is referred to as the Hilight Field Tract, has been assigned case number WYW164812.
- Ark Land Company applied for a maintenance coal lease for approximately 2,370.52 acres (approximately 428 million tons of coal) in a maintenance tract of Federal coal adjacent to the Black Thunder Mine. The tract, which is referred to as the West Hilight Field Tract, has been assigned case number WYW172388.

- Jacobs Ranch Coal Company applied for a maintenance coal lease for approximately 5,944.37 acres (approximately 956 million tons of coal) in a maintenance tract of Federal coal adjacent to the Jacobs Ranch Mine. The tract, which is referred to as the West Jacobs Ranch Tract, has been assigned case number WYW172685.

- BTU Western Resources, Inc. applied for a maintenance coal lease for approximately 5,116.65 acres (approximately 598 million tons of coal) in a maintenance tract of Federal coal adjacent to the North Antelope Rochelle Mine. The tract, which is referred to as the Porcupine Tract, has been assigned case number WYW173408.

Consistent with Federal regulations under NEPA and the Mineral Leasing Act of 1920, as amended, the BLM must prepare an environmental analysis prior to holding a competitive Federal coal lease sale. The Powder River Regional Coal Team recommended that BLM process these four coal lease applications after they reviewed the Hilight Field, West Hilight Field, and West Jacobs Ranch Tracts at a public meeting held on April 19, 2006, in Casper, Wyoming, and the Porcupine Tract at a public meeting held on January 18, 2007, in Casper, Wyoming.

DATES: This notice initiates the public scoping process. To provide the public with an opportunity to review the proposal and gain understanding of the coal leasing process, the BLM will host a meeting on July 24, 2007, at 7 p.m. at the Clarion Hotel and Convention Center, 2009 South Douglas Highway, in Gillette, Wyoming. At the meeting, the public is invited to submit comments and resource information, plus identify issues or concerns to be considered in the coal leasing process. The BLM can best use public input if comments and resource information are submitted by August 31, 2007. The BLM will announce future public meetings and other opportunities to submit comments on this project at least 15 days prior to the events. Announcements will be made through local news media and the Casper Field Office's Web site, which is: <http://www.wy.blm.gov/cfo/>.

FOR FURTHER INFORMATION CONTACT: Sarah Bucklin or Mike Karbs, BLM Casper Field Office, 2987 Prospector Drive, Casper, Wyoming 82604. Ms. Bucklin or Mr. Karbs may also be reached at (307) 261-7600.

ADDRESSES: Please submit written comments or concerns to the BLM Casper Field Office, Attn: Sarah Bucklin, 2987 Prospector Drive, Casper, Wyoming 82604. Written comments or resource information may also be hand-

delivered to the BLM Casper Field Office or sent by facsimile to the attention of Sarah Bucklin at (307) 261-7587. Comments may be sent electronically to casper_wymail@blm.gov. Please include "Wright Area Coal EIS/Sarah Bucklin" in the subject line.

Members of the public may examine documents pertinent to this proposal by visiting the Casper Field Office during its business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays.

Section 35: Lots 3 through 6, 11 through 14.

Containing 5,116.65 acres, more or less.

BTU Western Resources, Inc.

proposes to mine the tract as a part of the North Antelope Rochelle Mine. At the 2006 mining rate of 89.7 million tons per year, the coal included in the Porcupine Tract would extend the life of the North Antelope Rochelle by as many as six years.

Lands in the Hilight Field, West Hilight Field, and Porcupine Tracts contain Federal surface administered by the Forest Service and private surface estate which overlies the Federal coal. Lands in the West Jacobs Ranch Tract contain private surface estate which overlies the Federal coal.

The Black Thunder Mine, Jacobs Ranch Mine, and North Antelope Rochelle Mine are operating under approved mining permits from the Land Quality and Air Quality Divisions of the Wyoming Department of Environmental Quality. The USDA Forest Service and the Office of Surface Mining Reclamation and Enforcement (OSM) will be cooperating agencies in the preparation of the EIS. Before the tracts can be leased, the Forest Service must consent to leasing the portions of the tracts that are part of the Thunder Basin National Grassland. If the four tracts are leased to the applicants, the new leases must be incorporated into the existing mining and reclamation plans for the adjacent mines. Before the Federal coal in each tract can be mined, the Secretary of the Interior must approve the revised Mineral Leasing Act (MLA) mining plan for the mine in which each tract will be included. The OSM is the Federal agency that is responsible for recommending approval, approval with conditions, or disapproval of the revised MLA mining plan to the Office of the Secretary of the Interior. Other cooperating agencies may be identified during the scoping process.

The BLM will provide interested parties the opportunity to submit comments or relevant information or both. This information will help the BLM identify issues to be considered in preparing the Wright Area Coal EIS. Issues that have been identified in analyzing the impacts of previous Federal coal leasing actions in the Wyoming Powder River Basin (PRB) include the need for resolution of conflicts between existing and proposed oil and gas development and coal mining on the tracts proposed for coal leasing; potential impacts to big game herds and hunting; potential impacts to Greater sage-grouse; potential impacts to listed threatened and endangered

species; potential health impacts related to blasting operations conducted by the mines to remove overburden and coal; the need to consider the cumulative impacts of coal leasing decisions combined with other existing and proposed development in the Wyoming PRB; and potential site-specific and cumulative impacts on air and water quality.

Your response is important and will be considered in the EIS process. If you do respond, we will keep you informed of the availability of environmental documents that address impacts that might occur from this proposal.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Alan Rabinoff,

Acting State Director.
