III. Waiver of Proposed Rulemaking and Delay in Effective Date

We ordinarily publish a notice of proposed rulemaking in the Federal Register to provide a period for public comment before the provisions of a rule take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). However, we can waive this notice and comment procedure if the Secretary finds, for good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the correction notice.

Section 553(d) of the APA ordinarily requires a 30-day delay in effective date of final rules after the date of their publication in the **Federal Register**. This 30-day delay in effective date can be waived, however, if an agency finds for good cause that the delay is impracticable, unnecessary, or contrary to the public interest, and the agency incorporates a statement of the findings and its reasons in the rule issued.

This correction notice corrects technical errors in the RY 2008 LTCH PPS final rule. It does not make substantive changes to the policies or payment methodologies that were adopted in the final rule. We believe it is unnecessary to undergo notice and comment procedures and have a 30-day delay in effective date of these technical changes because they merely ensure that the RY 2008 LTCH PPS final rule accurately reflects the policies that were adopted in that final rule, final policies which were previously subjected to notice and comment procedures and that have had more than a 30 day-delayed effective date. We believe it impracticable to engage in notice and comment procedures and have a 30-day delayed effective date for these technical corrections as the correct payment rates must be effective July 1, 2007.

Therefore, we are waiving proposed rulemaking and the 30-day delay in effective date for the technical corrections in this correction notice.
