SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What Action Is EPA Taking?
- II. Under What Authority Is EPA Approving These Delegations?
- III. What Is the Effect of These Delegations?
- IV. How Can I Get Copies of This Document and Other Related Information?

I. What Action Is EPA Taking?

We are notifying the public that pursuant to section 112(1) of the Clean Air Act (CAA) and 40 CFR 63.92, EPA has approved the IDEM request to delegate the authority to implement and enforce 40 CFR part 63, subparts II, CCC, MMMM, PPPP, and DDDDD. IDEM has incorporated these NESHAPs by reference, unchanged from the federal standards, through Indiana rules 326 IAC 20-26, 326 IAC 20-29, 326 IAC 20-80, 326 IAC 20-81, and 326 IAC 20-95, respectively. EPA has also approved the delegation of the Category I authorities

for these NESHAP standards as set forth at 40 CFR 63.91(g).

II. Under What Authority Is EPA Approving These Delegations?

Pursuant to section 112(1) of the CAA, a state may develop and submit to EPA for approval a program for the partial or complete delegation of section 112 rules. EPA may approve state rules or programs which either: (1) Implement and enforce section 112 rules as promulgated by EPA (“straight delegation”); (2) implement and enforce state rules which adjust section 112 rules; or, (3) implement and enforce state rules which substitute for section 112 rules. The Federal regulations governing EPA’s approval of state rules or programs under section 112(1) are located at 40 CFR part 63, subpart E.

Currently, IDEM has an EPA-approved program for the straight delegation of NESHAP standards. EPA approved IDEM’s program for part 70 and non-part 70 sources on November 14, 1995, (60 FR 57118) and July 8, 1997 (62 FR 36460), respectively. Pursuant to the approved delegation program, EPA has approved the straight delegation of numerous NESHAP standards in Indiana (see 62 FR 36460 (7/8/1997), 65 FR 17264 (3/31/2000), 69 FR 22508 (4/26/2004), and 71 FR 2225 (1/13/2006)). EPA has also approved rule adjusted NESHAP delegations for subparts X, VVVV, WWWW (see 71 FR 48923 (8/22/2006) and 71 FR 56971 (9/28/2006)).

By letter dated February 8, 2007, IDEM requested approval of five additional ‘straight delegations’ of authority for 40 CFR part 63, subparts II, CCC, MMMM, PPPP, and DDDDD.

III. What Is the Effect of These Delegations?

On May 30, 2007, EPA approved IDEM’s request to delegate the authority to implement and enforce 40 CFR part 63, subparts II, CCC, MMMM, PPPP, and DDDDD, through 326 IAC 20-26, 326 IAC 20-29, 326 IAC 20-80, 326 IAC 20-81, and 326 IAC 20-95. EPA also approved the delegation of the applicable Category I authorities as set forth at 40 CFR section 63.91(g).

All notifications, reports and other correspondence required under these NESHAPs, should be sent to the State of Indiana, rather than to the EPA, Region 5, in Chicago. Affected sources should send this information to: Indiana Department of Environmental Management, Office of Air Quality, 100 North Senate Avenue, Indianapolis, Indiana 46204-2251.

Pursuant to Section 112(1)(7) of the CAA, nothing in this delegation prohibits EPA from enforcing any

applicable emission standard or requirement.

Notice of Availability of Draft NPDES General Permits for Noncontact Cooling Water Discharges in the States of Massachusetts and New Hampshire

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Draft NPDES General Permits, MAG250000 and NHG250000.

SUMMARY: The Director of the Office of Ecosystem Protection, EPA-New England, is issuing notice of availability of the draft National Pollutant Discharge Elimination System (NPDES) general permits for noncontact cooling water (NCCW) discharges to certain waters of the Commonwealth of Massachusetts and the State of New Hampshire. These General Permits replace the NCCW General Permits which expired on April 25, 2005.

These draft General Permits establish Notice of Intent (NOI) requirements, effluent limitations, standards, prohibitions, and management practices for facilities discharging NCCW. Owners and/or operators of facilities discharging NCCW, including those currently authorized to discharge under the expired General Permits, will be required to submit an NOI to be covered by the General Permit to both EPA-New England and the appropriate state agency. After EPA and the State have reviewed the NOI, the facility will receive a written notification from EPA of permit coverage and authorization to discharge under the General Permit. The eligibility requirements for coverage under this General Permit are discussed in detail under Part 3 of the General Permit. The reader is strongly urged to
