

These programs carry out projects relating to research, consumer information, advertising, sales promotion, producer information, market development, and product research to assist, improve, or promote the marketing, distribution, and utilization of their respective commodities. Approval of the programs is required through referendum of affected parties. The programs are administered by industry boards composed of producer, handler, processor, and in some cases, importer and public members appointed by the Secretary of Agriculture. Program funding is generated through assessments on designated industry segments.

The Secretary also approves the boards' budgets, plans, and projects. These responsibilities have been delegated to AMS. The applicable commodity program areas within AMS have direct oversight of the respective programs.

The information collection requirements in this request are essential to carry out the intents of the various Acts authorizing such programs, thereby providing a means of administering the programs. The objective in carrying out this responsibility includes assuring the following: (1) Funds are collected and properly accounted for; (2) expenditures of all funds are for the purposes authorized by the enabling legislation; and (3) the board's administration of the programs conforms to USDA policy. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the respective orders, and their use is necessary to fulfill the intents of the Acts as expressed in the orders. The information collected is used only by authorized employees of the various boards and authorized employees of USDA.

The various boards utilize a variety of forms including: reports concerning status information such as handler and importer reports; transaction reports; exemption from assessment forms and reimbursement forms; forms and information concerning referenda including ballots; forms and information concerning board nominations and selection and acceptance statements; certification of industry organizations; and recordkeeping requirements. The forms and information covered under this information collection require the minimum information necessary to effectively carry out the requirements of the programs and their use is necessary to fulfill the intent of the applicable authorities.

AMS is committed to complying with the E-Government Act, which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.41 hours per response.

Respondents: Producers, processors, handlers, importers, and others in the marketing chain of a variety of agricultural commodities, and recordkeepers.

Estimated Number of Respondents: 452,182.

Estimated Total Annual Responses: 415,677.

Estimated Number of Responses per Respondent: 0.92.

Estimated Total Annual Burden on Respondents: 170,033.37 hours.

Copies of this information collection can be obtained from Angela C. Snyder, Research and Promotion; Standards, Promotion, & Technology Branch at (202) 720-0976.

Comments regarding, but not limited to: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received will be available for public inspection during regular business hours at the above address and may be viewed at <http://www.regulations.gov>. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: June 29, 2007.

SUPPLEMENTARY INFORMATION:

Title: Importation of Live Swine, Pork, and Pork Products From Eight Mexican States.

OMB Number: 0579-0230.

Type of Request: Revision and extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) is authorized, among other things, to prohibit the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of animal diseases and pests. To fulfill this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, chapter 1, subchapter D, parts 91 through 99, of the Code of Federal Regulations.

Part 94, § 94.25, allows the importation, subject to certain conditions, of live swine, pork, and pork products from certain regions, including the eight Mexican States of Baja California, Baja California Sur, Campeche, Chihuahua, Quintana Roo, Sinaloa, Sonora, and Yucatan, that are free of classical swine fever. Among the conditions is a requirement for a certificate that must be completed by Mexican veterinary authorities prior to export. The certificate must identify both the region of export and the region of origin as regions designated in §§ 94.9 and 94.10 as free of classical swine fever at the time the live swine, pork, or pork products were in the regions.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Full-time salaried veterinarians employed by the national government of Mexico.

Estimated annual number of respondents: 8.

Estimated annual number of responses per respondent: 10.

Estimated annual number of responses: 80.

Estimated total annual burden on respondents: 80 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28th day of June 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
