

www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

II. What Action is the Agency Taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. USDA/APHIS has requested the Administrator to issue a quarantine exemption for the use of (E,E)-9,11-tetradecadien-1-yl acetate on host plants to control the LBAM. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the Applicant asserts that requested chemical is

needed as part of a quarantine program to eradicate the LBAM. The LBAM destroys, stunts, or deforms young seedlings, spoils the appearance of ornamental plants, and injures deciduous fruit-tree crops, citrus, and grapes. LBAM has the potential to cause significant economic losses due to increased production costs and the possible loss of international and domestic markets. The impact on production costs for LBAM hosts may exceed \$100 million in the state of California.

The Applicant proposes to place the pheromone dispensers in tree crops and field crops. Dispensers are to be applied uniformly throughout the treated acreage to obtain a reduction in mating. Between 200 to 300 dispensers should be used per acre.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient) which has not been registered by EPA. The notice provides an opportunity for public comment on the application.

EPA is waiving the public comment period, as allowed in 40 CFR 166.24, due to the short period of time available with which to review this situation and render a timely decision. However, comments may still be submitted and will be evaluated.

Casmalia Superfund Site; Notice of Proposed CERCLA Administrative De Minimis Settlement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive

Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), the EPA is hereby providing notice of a proposed administrative *de minimis* settlement concerning the Casmalia Superfund Site in Santa Barbara County, California ("the Casmalia Superfund Site"). Section 122(g) of CERCLA, 42 U.S.C. 9622(g), provides EPA with the authority to enter into administrative *de minimis* settlements. This settlement is intended to resolve the liabilities of 31 settling parties for the Casmalia Superfund Site under CERCLA and section 7003 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. 6973. The settlement will also resolve the Casmalia Superfund Site-related liability for response costs incurred or to be incurred, and potential natural resource damage claims, by the United States Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, and the United States Air Force. The settling parties will pay a total of \$1,067,477 to EPA.

DATES: EPA will receive written comments relating to the settlement until August 10, 2007. The EPA will consider all comments it receives during this period, and may modify or withdraw its consent to the settlement if any comments disclose facts or considerations indicating that the settlement is inappropriate, improper, or inadequate.

In accordance with section 7003(d) of RCRA, 42 U.S.C. 6973(d), commenters may request an opportunity for a public meeting in the affected area. The deadline for requesting a public meeting is July 19, 2007. Requests for a public meeting may be made by calling Karen Goldberg at (415) 972-3951, or e-mailing her at goldberg.karen@epa.gov, or submitting a written request by facsimile addressed to her at (415) 947-3570.

ADDRESSES: Written comments should be addressed to Casmalia Case Team, U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street (mail code SFD-7-1), San Francisco, California 94105-3901.

FOR FURTHER INFORMATION CONTACT: Additional information about the Casmalia Superfund Site and about the proposed settlement may be obtained on the Casmalia Web site at: <http://www.epa.gov/region09/Casmalia> or by calling Karen Goldberg at (415) 972-3951.
