NUCLEAR REGULATORY COMMISSION

[Docket No. 50–250]

Florida Power and Light Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Florida Power and Light Company (the licensee) to withdraw its May 17, 2007, application for proposed amendment to Facility Operating License No. DPR–31 for the Turkey Point Plant, Unit 3, located in Dade County, Florida.

The proposed amendment would have revised the Technical Specifications to allow the use of an alternate method of determining rod position for control rods M–6 and G–5 with inoperable Analog Rod Position Indicators. The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on May 24, 2007 (72 FR 29186). However, by letter dated June 13, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 17, 2007, and the licensee's letter dated June 13, 2007, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, *http://www.nrc.gov/reading-rm.html.* Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1–800–397–4209, or 301–415–4737 or by e-mail to: *pdr@nrc.gov.*

Dated at Rockville, Maryland, this 29th day of June 2007.

For the Nuclear Regulatory Commission.

Brenda Mozafari,

Senior Project Manager, Plant Licensing Branch II–2, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–498 and 50–499]

STP Nuclear Operating Company; South Texas Project, Units 1 and 2; Notice of Consideration of Approval of Application Regarding Proposed Indirect Transfer of Control of Facility Operating Licenses, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission, NRC) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of control of Facility Operating Licenses, numbered NPF–76 and NPF–80, for the South Texas Project (STP), Units 1 and 2, respectively, to the extent owned by NRG South Texas LP (NRG South Texas).[1]

STP Nuclear Operating Company (STPNOC), acting on behalf of itself and NRG South Texas and its corporate parent, NRG Energy Inc. (NRG Energy), requests that the NRC consent to the indirect transfer of control of STP, Units 1 and 2, licenses to the extent owned by NRG South Texas. NRG South Texas owns 44 percent of STP, Units 1 and 2. NRG Energy plans to reorganize its corporate structure by creating a new publicly-held holding company (NRG HoldCo) that will become the parent company for NRG Energy and its subsidiaries. NRG Energy is seeking NRC consent to the indirect transfer of control of its licenses that result from the establishment of NRG HoldCo. In addition to its 44 percent undivided ownership interest in STP, Units 1 and 2, NRG South Texas holds a corresponding interest in STPNOC, a not-for-profit Texas corporation, which is the licensed operator of STP, Units 1 and 2. Thus, the indirect transfer of control of NRG South Texas also results in the indirect transfer of this interest in STPNOC. STPNOC states that this is not a controlling interest in STPNOC and, therefore, there will be no indirect transfer of STPNOC's licenses to operate on behalf of the owners. The applicant indicates that if the NRC concludes that indirect transfer of control of NRG South Texas' interest in STPNOC requires prior NRC consent, it requests such consent.

According to an application for approval filed by STPNOC, in connection with the NRG Energy plans to reorganize its corporate structure by operating a new publicly-held holding

[1] On June 29, 2007, the NRC granted an amendment request changing the name of one of the licensees from Texas Genco, LP, to NRG South Texas LP.
