

census address list and also to resolve potential duplicates. The Initial Housing Unit Followup operation will also determine the housing unit/group quarters status for living quarters flagged during the CCM Independent Listing operation. The Initial Housing Unit Followup data collection form will be created via Docuprint technology. The questions included for each followup case will vary depending upon the reason the address is being sent to followup. There will be one Initial Housing Unit Followup Form, DX-1303, that contains preprinted questions to ask respondents dependent upon the reason the address is being sent to followup. Interviewers will contact a member of each housing unit (or proxy, as a last resort) to answer the questions identified for a given address. When applicable, they will also update the location of an address on the CCM block cluster map created during the CCM Independent Listing operation.

Completed Initial Housing Unit Followup Forms are subject to Quality Control (QC) wherein QC interviewers return to the field to check a sample of housing units in each block cluster to ensure the work performed is of acceptable quality. If the cluster fails the QC, then the QC interviewer reworks the entire block cluster.

BIS reserves the right to limit the number of participants based on time considerations. For planning purposes, BIS requests that (1) That interested parties inform BIS of their commitment, via e-mail or telephone call, to address the DEAC no later than 5 p.m. EST July 13, 2007, as well as provide a brief outline of the topics to

be discussed by this same deadline; and, (2) that once interested parties receive confirmation of their participation at the meeting, they provide either an electronic or paper copy of any prepared remarks/presentations no later than 5 p.m. EST July 23, 2007. Interested parties may contact Ms. Yvette Springer at [Yspringer@bis.doc.gov](mailto:Yspringer@bis.doc.gov) or (202) 482-2813.
