Place of Meeting: Ronald Reagan Building and International Trade Center, 1300 Pennsylvania Avenue, NW., Washington, DC 20004.

Purpose of Meeting: Review and evaluate the Commission's report and the findings and recommendations related to the Commission's mission to examine the care provided to wounded service members.

Subject to seating availability this meeting is open to the public.

The Commission will discuss its report and recommendations; consequently there will be no oral public forum. Any person desiring to make a written submission must provide the point of contact listed below with one copy of the written submission by 18 July 2007 5 p.m. Point of Contact is Major Teresa Barnes or Leslie Smith. Telephone number is toll free (877) 588–2035 or Fax (703) 588–2046.

FOR FURTHER INFORMATION ON SUBMITTING STATEMENTS CONTACT: Major Teresa Barnes or Leslie Smith, toll free (877) 588–2035 or fax (703) 588–2046.

SUPPLEMENTARY INFORMATION:

Meeting agenda:

11 a.m. to 11:15 a.m. (Not Open to the Public) Administrative Work Meeting.

11:15 a.m. To Be Determined (Public Session) Review and Evaluation of Commissions Findings and Recommendations.

Dated: July 5, 2007.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, DoD.

DEPARTMENT OF DEFENSE

Department of the Army: Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement (EIS) for a Permit Application for Compartments B and C, Palm Beach and Hendry Counties, FL

AGENCY: U.S. Army Corps of Engineers, Jacksonville District, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers (Corps), Jacksonville District, will be receiving a permit application for a Department of the Army permit under Section 404 of the Clean Water Act from the South Florida Water Management District (SFWMD) to construct Stormwater Treatment Areas (STAs) on parcels of land identified as Compartments B and C of the Everglades Agricultural Area (EAA) (Proposed Action). As part of the permit process, the Corps is evaluating the environmental effects associated with construction of STAs on these parcels in order to provide additional treatment to assist the existing STAs in the overall goal of improving the quality of water delivered and to be delivered to the Everglades Protection Area (EPA) in order to prevent further environmental degradation.

The primary federal involvement associated with the Proposed Action is the discharge of fill material (including permanent inundation) within federal jurisdictional areas and Waters of the United States. In addition, the Proposed Action could have potential significant effects on the human environment. Therefore, the Corps will prepare an EIS in compliance with the National Environmental Policy Act (NEPA) to render a final decision on the SFWMD's permit application. The Corps' decision will be to either issue or deny a Department of the Army permit for the Proposed Action. The Draft EIS is intended to be sufficient in scope to address federal, state, and local requirements and environmental issues concerning the Proposed Action and permit reviews.

FOR FURTHER INFORMATION CONTACT: Questions about the Proposed Action and Draft EIS should be directed to Ms. Tori White, Corps Regulatory Project Manager, by telephone at (561) 472–8888 or by e-mail at *tori.white@usace.army.mil.* Written comments should be addressed to the U.S. Army Corps of Engineers, South Florida Restoration Program Office, Attn: Ms. Tori White, 1400 Centrepark Boulevard, Suite 750, West Palm Beach, Florida 33401 or by facsimile at (561) 683–2418. Information about the Proposed Action and Draft EIS can also be obtained from the Jacksonville District Web site at *http://www.saj.usace.army.mil.*

SUPPLEMENTARY INFORMATION:

1. *Project Site and Background Information.* The Proposed Action is located at Compartments B and C of the EAA. Compartment B is located within USGS Quadrangles of Deem City, North of Deem City and West of Big Lake, Sections 23, 24, 25 and 36, Township 46 south, Range 37 east; Sections 19, 20, 21, 28, 29, 30, 31, 32 and 33, Township 46 south, Range 38 east; Sections 05, 06, 08, 09, 10, 11, 14, 15, 16, 17, 21 and 22, Township 47 south, Range 38 east. More specifically it is located in southern Palm Beach County east of Highway U.S. 27, and west of Water Conservation Area 2A and STA 2 in Southern Palm Beach County, Florida. Compartment C is located within the USGS Quadrangle of Everglades 2NW and Everglades 2SW, Sections 09, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24, 26 and 27, Township 47 south, Range 34 east. More specifically, it is located west of the Rotenberger Wildlife Management Area and east of the L–3 Canal between STA–5 and STA–6 in eastern Hendry County, Florida.

(a) *Background.* On October 4, 1996, the Corps published a Final Programmatic Environmental Impact Statement (PEIS) for the initial Everglades Construction Project (ECP) which consisted of six STAs comprising approximately 44,000 acres. The ECP was implemented by the SFWMD as a result of nutrient loads of stormwater and runoff and high phosphorus loads from the EAA, Lake Okeechobee, and other contributory basins which discharge into the EPA. The EPA includes Water Conservation Areas 1 (Arthur R. Marshall Loxahatchee National Wildlife Refuge), 2A, 2B, 3A, 3B and Everglades National Park. The initial ECP was intended to achieve an interim target discharge of a long-term
