

Proposed Rules

Federal Register

Vol. 72, No. 137

Wednesday, July 18, 2007

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

[Docket No. PRM-50-86]

Sherwood Martinelli; Denial of Petition for Rulemaking

AGENCY: Nuclear Regulatory Commission.

ACTION: Denial of petition for rulemaking.

SUMMARY: The Nuclear Regulatory Commission (NRC) is denying a petition for rulemaking (PRM-50-86) submitted by Sherwood Martinelli. The petitioner requested that the NRC amend its regulations to provide financial protection for individuals harmed by releases of nuclear material following an incident or attack at a nuclear facility, and to require licensees to pay for satellite communication systems for nuclear power plant communities to "protect human health and the environment." The petitioner also requested that nuclear facilities licensed by the NRC or the Federal government provide adequate funding to enable every family living within 10 miles of a nuclear facility to build, stock, and maintain a personal family shelter to allow families to shelter in place during releases of nuclear material following an incident or attack at a nuclear facility.

ADDRESSES: Copies of the petition for rulemaking and NRC's letter to the petitioner may be examined at the NRC Public Document Room (PDR), Public File Area Room O-1 F21, 11555 Rockville Pike, Rockville, MD. These documents also may be viewed and downloaded electronically via the rulemaking Web site.

The NRC maintains an Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/>

adams.html. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC PDR Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Michael T. Lesar, Chief, Rulemaking, Directives, and Editing Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7163; e-mail: MTL@nrc.gov.

SUPPLEMENTARY INFORMATION:

The Petition

The petitioner requested that the NRC amend its regulations to provide financial protection for individuals harmed by releases of nuclear material following an incident or attack at a nuclear facility, and to require licensees to pay for satellite communication systems for nuclear power plant communities to "protect human health and the environment." The petitioner also requested that nuclear facilities licensed by the NRC or the Federal government provide adequate funding to enable every family living within 10 miles of a nuclear facility to build, stock, and maintain a personal family shelter to allow families to shelter in place during releases of nuclear material following an incident or attack at a nuclear facility.

The petitioner also requested that the NRC amend its regulations so that anyone living within 10 miles of a licensed nuclear facility is able to demand an Independent Safety Assessment (ISA), which would include public review of onsite security and offsite evacuation plans for that licensee. The petitioner also sought other types of relief related to security issues at nuclear power plants.

A notice of receipt of this petition was not published in the **Federal Register**.

Reasons for Denial

The NRC is denying this petition because the NRC has determined that PRM-50-86 requests the NRC to take actions that exceed the NRC's authority, requests that the NRC address issues that the NRC has already considered in previous rulemakings, and fails to adequately support its requests to revise NRC regulations.

The petition requests the NRC to modify its regulations to require nuclear facilities licensed by the NRC or the Federal Government to provide adequate funding to enable every family living within 10 miles of a nuclear facility to build, stock, and maintain a personal family shelter to allow families to shelter in place during releases of nuclear material following an incident or attack at a nuclear facility. The NRC cannot grant this request, in part because the NRC is not authorized by Congress to make financial payments to individuals. Further, the petition does not establish that requiring licensees to pay for these shelters would be necessary, in light of existing NRC requirements on emergency preparedness, to provide reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency.

The petition also asks that NRC regulations be revised to require licensees to pay for satellite communication systems for nuclear power plant communities to "protect human health and the environment." The petition does not demonstrate how requiring licensees to pay for these satellite communication systems would provide, in light of existing NRC requirements on emergency preparedness, reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency.

The petition requests that NRC rules be changed so that anyone living within 10 miles of a licensed nuclear facility is able to demand an ISA, which would include public review of onsite security and offsite evacuation plans for that licensee. The NRC already conducts detailed, objective inspections of licensed research and test reactors, operating power reactors, and fuel facilities. The NRC also performs assessments under a program called the Reactor Oversight Process (ROP) at all operating power reactor facilities on a continuous basis. These assessments measure performance in seven fundamental areas to ensure safe plant operation. The ROP, as currently implemented, effectively incorporates the inspection elements of the 1996 Maine Yankee ISA. The NRC believes the ROP and NRC's regulatory framework effectively examine the same key aspects of plant safety as an ISA, but

with a better focus on potentially risk-significant problems.

The request for public review of onsite security plans cannot be granted because public review of these plans is not permissible. Allowing the details of these plans to be made public could aid adversaries. However, information concerning emergency plans is publicly available. Residents within a radius of approximately 10 miles from a nuclear power plant receive emergency information materials annually, including information about protective actions such as evacuation and sheltering. For more information concerning emergency plans, including public inspection of these plans, a resident should contact their local emergency management organization.

The petition also seeks revisions to NRC regulations because the petitioner claims that the Price-Andersen Act, the structures of corporate organizations, and NRC regulations do not adequately provide financial protection for individuals harmed by releases of nuclear material following an incident or attack at a nuclear facility. This claim challenges a statutory framework that the NRC is not authorized to change. Further, the petition does not explain why the current NRC regulations do not assure that the public will receive prompt financial compensation under available indemnity and underlying financial protection for damage resulting from the hazardous properties of radioactive materials or radiation.

The petition seeks other relief related to security issues at nuclear power plants. The petition does not provide significant new information or arguments that were not previously considered by the Commission in its final rule on the Design Basis Threat, which was published in the **Federal Register** on March 19, 2007 (72 FR 12705), and became effective on April 18, 2007.

For the reasons cited in this document, the NRC denies this petition.

Dated at Rockville, Maryland, this 12th day of July 2007.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary of the Commission.

BILLING CODE 7590-01-P

FEDERAL TRADE COMMISSION

16 CFR Part 24

Guides for Select Leather and Imitation Leather Products; Corrections

AGENCY: Federal Trade Commission.

ACTION: Request for public comments; correction.

SUMMARY: The Federal Trade Commission published a document in the **Federal Register** on May 23, 2007 (72 FR 28906) requesting public comments on the Commission's Guides for Select Leather and Imitation Leather Products ("Leather Guides"). Inadvertently, the **ADDRESSES** Block of the **Federal Register** Notice did not state that if the Notice appeared at <http://www.regulations.gov>, members of the public could file an electronic comment through that Web site, as well as by accessing the following Web site: <https://secure.commentworks.com/ftc-leatherguides>, and following the instructions on the web-based form.

FOR FURTHER INFORMATION CONTACT: Donald S. Clark, Secretary of the Commission, at (202) 326-2514.

SUPPLEMENTARY INFORMATION: This is a summary of the FTC's Erratum. The **ADDRESSES** Block in the May 23, 2007 Notice is amended to add the following two sentences at the end of the first paragraph in the **ADDRESSES** Block: "If this notice appears at <http://www.regulations.gov>, you may also file an electronic comment through that Web site. The Commission will consider all comments that [regulations.gov](http://www.regulations.gov) forwards to it."

Donald S. Clark,
Secretary.

BILLING CODE 6750-01-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

33 CFR Part 334

United States Navy Restricted Area, Naval Support Activity, Panama City, FL

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is proposing to establish ten restricted areas at Naval Support Activity (NSA), Panama City (PC), Florida. NSA, Panama City, and its major tenant command, the Naval Surface Warfare Center (NSWC), have been recognized as one of the lead research, development, test and evaluation laboratories of the U.S. Navy. In addition, the Naval Diving and

Salvage Training Center (NDSTC) relocated from the Washington Navy Yard to NSA PC and now hosts a consolidated training for the U.S. Army Corps of Engineers, U.S. Coast Guard, the Navy's satellite dive schools, the U.S. Marine Corps and the U.S. Air Force. As such, a large majority of military dive training is now concentrated at NSA, PC. The proposed restricted areas in Panama City waters meet strict military training parameters that cannot be duplicated elsewhere. Military training in and around St. Andrews Bay has existed in harmony with local boat traffic and development since 1945. NSA, PC requests to formalize these ongoing activities within the waters of St. Andrews Bay in efforts to maximize public safety and to preserve current military training vital to the Global War on Terror and to all service military readiness.

DATES: Written comments must be submitted on or before August 17, 2007.

ADDRESSES: You may submit comments, identified by docket number COE-2007-0017, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

E-mail:

david.b.olson@usace.army.mil. Include the docket number COE-2007-0017 in the subject line of the message.

Mail: U.S. Army Corps of Engineers, Attn: CECW-CO (David B. Olson), 441 G Street NW, Washington, DC 20314-1000.

Hand Delivery/Courier: Due to security requirements, we cannot receive comments by hand delivery or courier.

Instructions: Direct your comments to docket number COE-2007-0017. All comments received will be included in the public docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the commenter indicates that the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI, or otherwise protected, through www.regulations.gov or e-mail. The www.regulations.gov web site is an anonymous access system, which means we will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail directly to the Corps without going through www.regulations.gov, your e-mail address will be automatically captured and included as
