Abstract: The ED-524 Budget Information Non-Construction Programs Form and Instructions were previously part of another collection, OMB control number 1890-0004. The 1890-0004 collection currently includes three distinct information collection instruments, the ED 524 Budget Form, the ED 524B Grant Performance Report and the administrative requirements in the Education Department General Administrative Regulations (EDGAR). As part of the renewal of these instruments, we are requesting that each of the instruments be approved under separate OMB control numbers. Separating these instruments into three information collections will make it easier to make additional deletions, revisions or other needed changes to each instrument throughout the approval period and eliminate any potential confusion when changes are made to only one of the instruments. We are requesting a new OMB control number for the ED 524, Budget Form and a three-year approval. Please note that the ED 524B, Grant Performance Report will retain the 1890-0004 number. The ED 524 form and instructions are included in U.S. Department of Education (ED) discretionary grant application packages and are needed in order for applicants to submit summary-level budget data by budget category, as well as a detailed budget narrative, to request and justify their proposed grant budgets which are part of their grant applications.

SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC 582 "Electric Fees and Annual Charges."
2. *Sponsor:* Federal Energy Regulatory Commission.
3. Control No. 1902–0132.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of the Independent Offices Appropriation Act of 1952 (IOAA) (31 U.S.C. 9701) which authorizes the Commission to establish fees for its services. In addition, the Omnibus Budget Reconciliation Act of 1986 (OBRA) (42 U.S.C. 7178) authorizes the Commission "to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year." In calculating annual charges, the Commission first determines the total costs of its electric regulatory program and then subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. It then uses the data submitted under FERC information collection requirement FERC–582 to determine the total megawatt-hours of transmission of electric energy in interstate commerce. This is measured by the sum of the megawatt-hours of all unbundled transmission (including MWh delivered in wheeling transactions and MWh delivered in exchange transactions) and the megawatt-hours of all bundled wholesale power sales (to the extent these later megawatt-hours were not separately reported as unbundled transmission). This information must be reported to three (3) decimal places. Public utilities and power marketers subject to these annual charges must submit FERC–582 to the Secretary of the Commission by April 30 of each year.

The Commission issues bills for annual charges, and public utilities and power marketers then must pay the charges within 45 days of the Commission's issuance of the bill.

The Commission's staff uses companies' financial information filed under waiver provisions to evaluate requests for a waiver or exemption of the obligation to pay a fee for an annual charge. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 381, sections 381.108, and 381.302 and part 382, section 382.201(c).

5. *Respondent Description:* The respondent universe currently comprises 125 companies (on average) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 500 total hours, 125 respondents (average), 1 response per respondent, and 4 hours per response (rounded off and average time).

7. *Estimated Cost Burden to Respondents:* 500 hours/2080 hours per years × \$122,137 per year = \$ 29,360. The cost per respondent is equal to \$235.

Statutory Authority: Statutory provisions of sections Independent Offices Appropriation Act of 1952 (IOAA) (31 U.S.C. 9701) which authorizes the Commission to establish fees for its services. In addition, the Omnibus Budget Reconciliation Act of 1986 (OBRA) (42 U.S.C. 7178) authorizes the Commission "to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year."

Kimberly D. Bose,
Secretary.
