

180(c) grants on the basis of the mutual aid agreement?

(c) If so, how should the amount of funding be calculated, and should the calculation take into account whether or not the State or Tribe would otherwise be eligible for a grant?

(d) Should the State or Tribe that received notification of eligibility from DOE indicate in their grant application that a neighboring State or Tribe has a mutual aid agreement along a particular route, whereupon DOE would then notify the neighboring State or Tribe of its eligibility?

Question 4

(a) Do assessment and planning grants need to be undertaken four years prior to an initial scheduled shipment through a State or Tribe's jurisdiction?

(b) Do training grants need to commence three years prior to a scheduled shipment through a State or Tribe's jurisdiction?

(c) Do training grants need to be provided every year that shipments are scheduled?

Question 5

(a) Should the Section 180(c) grants be adjusted to account for fees levied by States or Tribes on the transportation of spent nuclear fuel or high-level radioactive waste through their jurisdiction?

(b) How should DOE determine if a fee covers all or part of the cost of activities allowed under Section 180(c) grants?

(c) Is the language in this policy, requiring States and Tribes to explain in their grant application how the fees and Section 180(c) grant awards are separate and distinct, sufficient to prevent DOE from paying twice for the same activity?

Question 6

(a) How should Section 180(c) grants be adjusted to reflect other funding or technical assistance from DOE or other Federal agencies for training for safe routine transportation and emergency response procedures?

(b) In particular, how should DOE account for TEPP and other similar programs that provide funding and/or technical assistance related to transportation of radioactive materials?

(c) To what extent is Section 180(c) funding necessary where funding and/or technical assistance are being or have been provided for other DOE shipping campaigns such as to DOE's Waste Isolation Pilot Plant?

Abstract: EPA contractors will be required to keep a database of business relationships. EPA contractors will be required to certify annually, or when work is ordered under a contract, that they have no actual or potential conflicts of interest involving the work to be performed under the contract. If an actual or potential conflict of interest is identified, then the contractor must disclose the relevant information to EPA. Under certain contracts, the contractor will be restricted in its future contracting in certain areas. To enter contracts in the restricted area, the contractor must submit a request to EPA with the relevant facts. This information is used by EPA to ensure contractors' work products are objective and unbiased, that contractors render impartial assistance or advice to EPA, and that contractors do not have an unfair competitive advantage. Responses are required to obtain a benefit. 5 U.S.C. 301; Sec. 205(c), 63 Stat. 390, as amended, 40 U.S.C. 486(c); and 41 U.S.C. 418b. Information received is treated as confidential in accordance with 40 CFR part 2, subpart B.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,138 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 135.

Estimated Number of Respondents: 135.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 153,626.

Estimated Total Annual Cost: \$9,561,000, which includes \$0 annualized capital or O&M costs and \$9,561,000 labor costs.

Changes in the Estimates: There is an increase of 7,986 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of EPA contracts containing conflict of interest requirements.
