Title: Reporting and Recordkeeping Requirements under EPA's WasteWise Program.

ICR numbers: EPA ICR No. 1698.07, OMB Control No. 2050-0139.

ICR Status: This ICR is scheduled to expire on July 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA's voluntary WasteWise program encourages businesses and other organizations to reduce solid waste through waste prevention, recycling, and the purchase or manufacture of recycled-content products. WasteWise participants include partners, who commit to implementing waste reduction activities of their choice, and endorsers which promote the WasteWise program and waste reduction to their members.

The *Partner Registration Form* identifies an organization and its facilities registering to participate in WasteWise, and requires the signature of a senior official that can commit the organization to the program. (This form can be submitted either electronically or in hard copy.) Within six months of registering, each partner is asked to conduct a waste assessment and submit baseline data and waste reduction goals to EPA via the *Annual Assessment Form*. (This form can also be submitted either electronically or in hard copy.) On an annual basis partners are asked

to report, via the Annual Assessment Form, on their progress toward achieving their waste reduction goals by estimating amounts of waste prevented and recyclables collected, and describing buying or manufacturing recycled-content products. They can also provide WasteWise with information on total waste prevention revenue, total recycling revenue, total avoided purchasing costs due to waste prevention, and total avoided disposal costs due to recycling and waste prevention. Additionally, they are asked to submit new waste reduction goals.

Endorsers, which are typically trade associations or State/local governments, submit the *Endorser Registration Form* once during their endorser relationship with WasteWise. (This form can be submitted either electronically or in hard copy.) The Endorser Registration Form identifies the organization, the principal contact, and the activities to which the Endorser commits.

EPA's WasteWise program uses the submitted information to (1) identify and recognize outstanding waste reduction achievements by individual organizations, (2) compile aggregate results that indicate overall accomplishments of WasteWise partners, (3) identify cost-effective waste reduction strategies to share with other organizations, and (4) identify topics on which to develop assistance and information efforts.

Burden Statement: The respondent burden for this collection is estimated to average 1 hour per response for the Partner Registration Form, 40 hours per response for the Annual Assessment Form, and 10 hours per response for the Endorser Registration Form.

The estimated number of respondents is 1,775 in Year 1; 1,875 in Year 2; and 1,975 in Year 3. Estimated total annual burden on all respondents is 66,350 hours in Year 1; 70,350 hours in Year 2; and 74,350 hours in Year 3.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Private Sector; State, Local, or Tribal Governments; and the Federal Government.

Estimated Number of Respondents: 1,875.

Frequency of Response: Once per year.

Estimated Total Annual Hour Burden: 70,350.

Estimated Total Annual Cost: Includes \$0 annualized capital or O&M costs, and \$4,245,450 annual labor costs.

Changes in the Estimates: There is an increase of 13,650 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an adjustment stemming from the increased number of partners.

Dated: July 18, 2007.

Sara Hisel-McCoy,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-R04-OAR-2006-0584; FRL-8444-4]

Adequacy Status of the Bi-State Louisville 8-Hour Ozone Motor Vehicle Emission Budgets for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that we have found that the Motor Vehicle Emissions Budgets (MVEBs) in Kentucky's bi-state Louisville 8-Hour Ozone Maintenance State Implementation Plan (SIP), submitted on September 29, 2006, by the Kentucky Division of Air Quality (KDAQ), are adequate for transportation conformity purposes. As a result of EPA's finding, the bi-state Louisville area must use the MVEBs from the September 29, 2006, bi-state Louisville 8-Hour Ozone Maintenance SIP for future conformity determinations for the 8-hour ozone standard. In a separate rulemaking, EPA has already approved these MVEBs. These MVEBs are identical to the MVEBs established for this area in the Indiana SIP.

DATES: These MVEBs were effective the date of publication (July 5, 2007) for the final rulemaking.

FOR FURTHER INFORMATION CONTACT: Lynorae Benjamin, Environmental

Engineer, U.S. Environmental Protection Agency, Region 4, Air Planning Branch, Air Quality Modeling and Transportation Section, 61 Forsyth Street, SW, Atlanta, Georgia 30303. Ms. Benjamin can also be reached by telephone at (404) 562-9040, or via electronic mail at benjamin.lynora@epa.gov. The finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/currstips.htm>.

SUPPLEMENTARY INFORMATION:

Background

This notice is simply an announcement of a finding that EPA has already made. EPA Region 4 sent a letter to KDAQ on June 18, 2007, stating that the MVEBs in Kentucky's SIP, submitted on September 29, 2006, are adequate. The bi-state Louisville 8-hour ozone nonattainment area is comprised of the following five counties: Bullitt, Oldham and Jefferson counties in Kentucky and Clark and Floyd counties in Indiana. EPA's adequacy comment period for Kentucky's SIP ran from April 27, 2007, through May 29, 2007. During EPA's adequacy comment period no comments regarding the adequacy of the MVEBs were received. This finding has also been announced on EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/paststips.htm>. The adequate MVEBs are provided in the following table:

BI-STATE LOUISVILLE 8-HOUR OZONE MVEBS

[Tons per day]

	2003	2020
VOC	40.97	22.92
NO _x	95.51	29.46

EPA has already approved these MVEBs in a separate rulemaking (72 FR 36601, July 5, 2007), and is providing this notice for informational purposes.

Transportation conformity is required by section 176 (c) of the Clean Air Act, as amended in 1990. EPA's conformity rule requires that transportation plans, programs and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which EPA determines whether a SIP's MVEBs are adequate for transportation conformity purposes are

outlined in 40 Code of Federal Regulations 93.118(e)(4). We have described the process for determining the adequacy of submitted SIP budgets in our July 1, 2004, final rulemaking entitled, "Transportation Conformity Rule Amendments for the New 8-hour Ozone and PM_{2.5} National Ambient Air Quality Standards and Miscellaneous Revisions for Existing Areas; Transportation Conformity Rule Amendments: Response to Court Decision and Additional Rule Changes" (69 FR 40004). Please note that an adequacy review is separate from EPA's completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if EPA finds the MVEBs adequate, the Agency may later determine that the SIP itself is not approvable.

Authority: 42 U.S.C. 7401 et seq.

Dated: June 25, 2007.

Russell L. Wright, Jr.,

Acting Regional Administrator, Region 4.

BILLING CODE 6560-50-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained

from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 17, 2007.

A. Federal Reserve Bank of Chicago (Burl Thornton, Assistant Vice President) 230 South LaSalle Street, Chicago, Illinois 60690-1414:

1. *Southern Michigan Bancorp, Inc.*, Coldwater, Michigan; to merge with FNB Financial Corporation, and thereby indirectly acquire First National Bank of Three Rivers, both of Three Rivers, Michigan.

Board of Governors of the Federal Reserve System, July 19, 2007.

Robert deV. Frierson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-07-0338]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-371-5976 or send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques
