The workshop will consist of two sessions to be organized as follows:

In the morning, staff plans to discuss issues related to implementing the proposal that intrastate pipelines post flow and capacity information of a daily basis. Participants are invited to bring up their implementation questions and issues. Some of the questions of interest to staff include:

1. Under the proposal, what are workable definitions of the terms "intrastate Docket Nos. RM07-10-000 and AD06-11-000 pipeline," "major" and "segments?"
2. How can posting requirements be adjusted to accommodate particular pipeline operational characteristics?
3. What and at what locations do intrastate pipelines already collect information for use in day-to-day operations? Can the proposal be modified to make effective use of existing information?
4. Which types of pipelines should be exempt (e.g., pipelines with a single customer)? Others?
5. What should be the *de minimis* criterion? (Criteria proposed in the comments include, e.g., three customers, 50,000 Dth/d, less than 110 miles, and less-than 24 inch diameter.)
6. What is a realistic turnaround time for posting?
7. Are there strategies to develop the same or similar information that would impose less of a burden on intrastate pipelines?

After a lunch break, staff plans to discuss implementing the proposal to collect aggregated annual data from buyers and sellers of physical natural gas. Again, the focus is to be on implementation issues. The following are possible questions to address at the workshop. Some of the questions of interest to staff include:

1. Do the questions set forth in the Appendix of the NOPR elicit sufficient data to assess the overall size of the physical wholesale markets as well as the relative portion that form price indices versus the portion that use or depend on price indices?
2. What specific formats, definitions and submittal technology should be used to ensure consistency of data for accurate aggregation and analysis?
3. What information should be made public? When?
4. Given various annual reporting obligations, what is a reasonable annual report date?
5. Is any additional information needed?

Questions regarding the conference should be directed to Lee Choo by e-mail at [lee-ken.choo@FERC.gov](mailto:lee-ken.choo@FERC.gov) or by phone at 202-502-6334.
