SUPPLEMENTARY INFORMATION: We initiate a 5-year reviews of eastern prairie fringed orchid, Hine's emerald dragonfly, Fassett's locoweed, Kirtland's warbler, and white cat's paw pearly mussel under section 4(c)(2)(A) of the Act (16 U.S.C. 1531 *et seq.*). We request any new information and appropriate data since their original listing or most recent status review that document the need to delist or reclassify these species.

A 5-year review is a periodic process conducted to ensure that the classification of a listed species is appropriate. It is based on the best scientific and commercial data available at the time of the review. Based on the results of these 5-year reviews, we will make a finding of whether these species are properly classified under section 4(c)(2)(B) of the Act.

Under the Act, we maintain the List of Endangered and Threatened Wildlife and Plant Species (List) at 50 CFR 17.11 and 17.12. We amend the List by publishing final rules in the **Federal Register**. The List is available on our Internet site at <http://www.fws.gov/endangered/wildlife.html#species>. Section 4(c)(2)(A) of the Act requires that we conduct a review of listed

species at least once every 5 years. Section 4(c)(2)(B) requires that we determine (1) Whether a species no longer meets the definition of threatened or endangered and should be removed from the List (delisted); (2) whether a species more properly meets the definition of threatened and should be reclassified from endangered to threatened; or (3) whether a species more properly meets the definition of endangered and should be reclassified from threatened to endangered. Using the best scientific and commercial data available, a species will be considered for delisting if the data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification requires a separate rulemaking process.

Definitions

To help you submit information about the species we are reviewing, we provide the following definitions:

Species includes any species or subspecies of fish or wildlife or plant, and any distinct population segment of any species of vertebrate which interbreeds when mature.

Endangered species means any species that is in danger of extinction throughout all or a significant portion of its range.

Threatened species means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

The regulations in 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This announces our active review of eastern prairie fringed orchid, Hine's emerald dragonfly, Fassett's locoweed, Kirtland's warbler, and white cat's paw pearly mussel.

If you do not respond to this request for information but subsequently possess information on the status of these species, we will accept new information regarding any federally listed species at any time.

Our practice is to make information, including names and home addresses of respondents, available for public review during regular business hours. Before including your address, telephone number, e-mail address, or other personal identifying information with your response, you should be aware that your entire submission—including your personal information—may be made publicly available at any time. While you can ask us in your response to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will not, however, consider information submitted anonymously. To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety. Information received in response to this notice will be available for public inspection, by appointment, during normal business hours (see **ADDRESSES**).
